

## **PRESS RELEASE**

# EURO AREA MFI INTEREST RATE STATISTICS: MARCH 2006

In March 2006 the majority of euro area average MFI interest rates on new deposits were higher than in the previous month, while those on new loans showed somewhat more mixed developments (see Table I of the Annex).

## Selected MFI interest rates (weighted averages on new business)

(percentages per annum excluding charges)

		Aug. 2005 – Jan. 2006 (average)	Feb. 2006	Mar. 2006
	Overnight deposits from non-financial corporations	0.99	1.07	1.14
SITS	Deposits from households redeemable at notice up to and including three months	1.99	1.99	1.98
DEPO	Deposits from households with agreed maturity up to and including one year	2.05	2.24	2.37
	Deposits from households with agreed maturity over two years	2.25	2.36	2.45
	Bank overdrafts of households	9.67	9.61	9.90
S	Loans to non-financial corporations up to and including EUR 1 million at a floating rate and up to and including one-year initial rate fixation	3.93	4.12	4.23
LOANS	Loans to non-financial corporations over EUR I million at a floating rate and up to and including one-year initial rate fixation ${\sf I}$	3.02	3.24	3.50
	Loans to non-financial corporations over EUR 1 million with an initial rate fixation over five years	3.89	4.00	4.18
	Loans to households for house purchase with an initial rate fixation over five years and up to and including ten years	4.02	4.16	4.23

Source: ECB MFI interest rate statistics.

MFI interest rates on new business: in March 2006 the weighted average rate on overnight deposits from non-financial corporations increased by 7 basis points to 1.14%. The weighted average rate on deposits from households redeemable at up to and including three months' notice remained broadly unchanged at 1.98%. In the same month, the weighted average rate on deposits from households with an agreed maturity up to and including one year increased by 13 basis points to 2.37% and the weighted average rate on bank overdrafts of households increased by 29 basis points to 9.90%. In the case of loans up to and including EUR I million to non-financial corporations at a floating rate or up to and including one-year initial rate fixation, the weighted average rate increased by 11 basis points to 4.23% in

March. At the same time, the weighted average rate on loans over EUR I million to non-financial corporations with the same initial rate fixation increased by 26 basis points to 3.50%. For longer-term loans, the weighted average rate on loans to non-financial corporations over EUR I million with over five years' initial rate fixation increased by 18 basis points to 4.18%. For households, the weighted average rate on loans for house purchase with over five and up to and including ten years' initial rate fixation increased by 7 basis points to 4.23%.

**MFI** interest rates on outstanding amounts: the weighted average interest rate on outstanding amounts of deposits from households with an agreed maturity up to and including two years increased by 7 basis points to 2.16% in March 2006. The weighted average interest rate on outstanding amounts of deposits from non-financial corporations with an agreed maturity up to and including two years increased by 10 basis points to 2.48% in the same month.

In March, the weighted average interest rate on outstanding amounts of loans to households for house purchase with over five years' maturity decreased by 2 basis points to 4.52%, and the weighted average interest rate on outstanding amounts of loans with over five years' maturity to non-financial corporations remained unchanged at 4.31%.

Weighting method: the interest rates on new business are weighted by the size of the individual agreements. This is done both by the reporting agents and when computing the national and euro area averages. In addition to changes in the actual interest rates, changes in the euro area average interest rates on new business therefore reflect changes in the weights of the new business per country for the instrument categories concerned.

#### **Notes**

- In addition to the monthly euro area MFI interest rate statistics for March 2006, this press release incorporates minor revisions to the data for previous periods.
- New business refers to any new agreement between the customer and the MFI, while outstanding amounts refer to the stock of all deposits and all loans at a specific moment in time. Three instrument categories overnight deposits, bank overdrafts and deposits redeemable at notice form a separate group for which interest rates on new business and on outstanding amounts coincide.
- More detailed information on MFI interest rate statistics is available under "MFI interest rate statistics" in the "Statistics" section of the ECB's website (http://www.ecb.int).
- The corresponding business volumes for each of the MFI interest rate categories are shown in Tables 2 and 4 of the Annex.

<sup>1)</sup> In the above table 'up to' shall mean 'up to and including'.

<sup>2)</sup> For this instrument category, new business and outstanding amounts coincide. End-of-period rates.

<sup>3)</sup> For this instrument category, households and non-financial corporations are merged and allocated to the household sector, since the outstanding amounts of non-financial corporations are negligible compared with those of the household sector in all participating Member States combined.

<sup>4)</sup> The annual percentage rate of charge covers the total cost of the loans. These total costs comprise an interest rate component and a component of other (related) charges, such as the cost of inquiries, administration, preparation of documents, guarantees, etc.
