

New Technologies for Wholesale settlement – Contact Group application form

This form should be used by all applicants interested in joining the New Technologies for Wholesale settlement – Contact Group (NTW-CG) as members, be it as a new member or a replacement of an existing member. For the latter, any significant change in a member's position within his or her institution will result in a review of the institution's membership and nominated replacement. The seat cannot be automatically passed on to a replacement within the institution. To further enhance the diversity and inclusion of the Contact Group, the ECB particularly encourages applications from institutions taking into consideration the Equality, Inclusion and Diversity Charter¹. To ensure equal treatment and broad representativeness, membership is subject to an annual review.

Applicants are requested to submit this application form, together with a CV² and any other relevant documentation to the NTW-CG Secretariat. Only a complete application, i.e., completed application form with attached CV, received by the NTW-CG Secretariat is considered admissible for review. The Chairperson selects and appoints members within an acceptable timeframe following the reception of application. The NTW-CG Secretariat will communicate to the applicant the final decision on the institution's application.

Please submit this application form and the relevant documentation to NTW-CGSecretariat@ecb.europa.eu.

Institution's motivation

Please briefly explain your institution's motivation to participate in the NTW-CG:

Please briefly explain your institution's previous or ongoing participation in DLT-related initiatives/projects involving wholesale transactions:
