14159/IS/2010 IS consultancy and services framework.

II.1.2) Type of contract and location of works, place of delivery or of performance
Services
Service category No 7: Computer and related services
NUTS code DE712

II.1.3) Information about a framework agreement or a dynamic purchasing system (DPS)
The notice involves the establishment of a framework agreement

II.1.4) Short description of the contract or purchase(s)
The contracts resulting from this tender procedure will enable the ECB to source IT activities across the services lifecycle of IT infrastructure and applications services. This includes also management consultancy, strategic and process development services.

With the IS consultancy and services framework, the ECB intends to improve project delivery and post go-live operations for IT infrastructure and applications, as well as increase the efficiency and flexibility to resource a large number of its IT activities.
The framework contractors shall provide consultancy services and works in the following areas:
— IT infrastructure management consultancy and delivery services, including development, system integration, operations and support,
— application management consultancy and delivery services. These include application development, maintenance and support, based on open frameworks (e.g. Java), product based platforms (e.g. SAP), and/or specialised technical markets (e.g. security, document management),
— IT management consultancy, strategic, technology and process development services. These include: IT governance, IT service management, quality management, and technical aspects of tenders and procurement procedures.

The whole scope of services is divided into 2 lots:
lot 1: services and works for applications and IT infrastructure (in part or full): design, build, operate, support and maintain;
lot 2: IS management consultancy, tender/call off preparation, studies (benchmarking) to support organisational, strategic and process development.
