- II.1.1) **Title:**
Provision of Planning and Coordination Services for Physical Security System Environment
Reference number: PRO-005755
- II.1.2) **Main CPV code**
50610000 Repair and maintenance services of security equipment
- II.1.3) **Type of contract**
Services
- II.1.4) **Short description:**

The ECB operates physical security systems on its premises (currently four separate buildings in the area of Frankfurt am Main) for the protection of the members of the ECB decision-making bodies, ECB staff members and visitors as well as the protection of the ECB premises.

The entire physical security systems are erected according to the latest developments of so-called IP-based technologies and are connected via a physically separated security infrastructure solely installed to connect the systems to the integrated system assembly. These systems include video, access control, alarm, radio installation ('BOS-Funkanlage') and other smaller systems. Under a contract for the provision of planning and coordination services for physical security system environment (PSI), the successful Tenderer shall provide services fully onsite, deploying a designated team (estimate: 3-4 qualified staff members plus administrative support) to the ECB's main building in Frankfurt am Main.

II.1.6) **Information about lots**

This contract is divided into lots: no

II.1.7) **Total value of the procurement (excluding VAT)**

II.2.3) **Place of performance**

NUTS code: DE712 Frankfurt am Main, Kreisfreie Stadt

Main site or place of performance:

The successful tenderer shall provide services fully onsite, deploying the designated team to the ECB's main building in Frankfurt am Main.

II.2.4) **Description of the procurement:**

Under a contract for the provision of planning and coordination services for physical security system environment (PSI), the successful Tenderer shall provide services fully onsite, deploying a designated team (estimate: 3-4 qualified staff members plus administrative support) to the ECB's main building in Frankfurt am Main.

The tasks of the team shall include among others:

- planning and coordination of tasks and works related to changes to the integrated system assembly, incl. security doors by respecting all applicable German building law and local regulations (e.g. fire protection, BauGB, HOAI/HBO/ELTVTR/VDS, etc.);
- CAD drawing and documentation of the projects;
- vendor management tasks;
- maintenance/administration of the ECB's 'Anlagenkennzeichnungssystem' (AKS) naming scheme of all integrated hard- and software components (currently approx. 65 000);
- coordination of cabling works and integration of single cabling lists, planning of cable trays and paths; and
- coordination and verification of new interfaces between systems or technologies.

It should be noted that whilst communication with the ECB takes place in English, the coordination of the suppliers requires a sound knowledge of German.

The provision of services shall start on 1 January 2022. The current contractor will be available during a transition period of at least 12 months for handover of the service (the ECB's assumption is that the transfer of knowledge requires at least this length of transition before the new contractor can provide the services autonomously).
