The owner of the local power supply grid ('Netzbetreiber') in Frankfurt is Netzdienste Rhein Main GmbH. Both decisions were published in the 'Official Journal of the European Union' (respectively OJ L 184, 14.7.2007, p. 34 and OJ L 51 of 24.2.2009, p. 10) and are available on the ECB's website at <http://www.ecb.europa.eu/ecb/jobsproc/proc/tenders/html/index.en.html>

The invitation to tender documentation is provided in the tender forum (see Section I.1).

Required format of tenders:

a) tenders must be submitted as hardcopies and on CD using the documentation published in the tender forum, following the details outlined in the invitation to tender document;

b) tenders submitted via e-mail are inadmissible and will not be considered.

Questions:

any questions to the ECB should be submitted exclusively via the tender forum (see Section I.1) and may be submitted in English or German. The answers will be provided in the language in which the questions were submitted.

Subcontracting:

candidates may rely on the capacities of other entities as subcontractors, in particular with regard to their technical capacity (see Section III.2.3), regardless of the legal nature of the links which they have with them. The candidates must prove that they will have at their disposal the resources necessary, for example, by providing an undertaking to that effect from such entities.

The use of subcontractors does not limit the candidate's responsibility and liability for due performance of all the contractual obligations. The ECB reserves the right to refuse any subcontractor taking into account the principles of transparency, equal access, publicity and equal treatment. Prior approval from the ECB will be required for both replacing a subcontractor and subcontracting additional major works.

Companies that submit sole tenders and, at the same time, appear as subcontractors for another candidate, or companies that appear as a subcontractor for several candidates, will in principle not be excluded from the tender procedure. In either case, the ECB will ask all the companies concerned to provide evidence that their participation in 2 or more tenders does not have a detrimental effect on competition. In particular, they must explain in detail what measures they have taken in order to prevent an exchange of critical information between the competing candidates. The ECB will decide on whether to exclude tenderers from the tender procedure, taking into account the information provided and the principles of transparency, equal access, publicity and equal treatment.

Exclusion from the tender procedure:

the ECB may, at its own discretion, exclude tenderers from the tender procedure who do not comply with the requirements and conditions set out in the invitation to tender document and contract notice, or do not provide the information requested.

Cancellation of the tender procedure:

the ECB reserves the right to cancel all or part of the tender procedure. This decision will take into account the principles of transparency, equal access, publicity and equal treatment. Cancellation may be necessary if the

offers in the first 8 construction tenders for the ECB new premises project in total exceed the ECB's available budget for same.

Liability and compensation:

the ECB is not liable for any costs, nor will it reimburse any expenses or losses which candidates incur or suffer in connection with the tender procedure, including in the event of a cancellation.
