Appendix 2.A Pilot PSP Documentation

Package Scope

Pilot PSP Documentation Package Scope

1. Purpose of the PSP Pilot Documentation Package

This appendix outlines the scope and structure of the documentation Pilot PSPs receive as part of **Annex 2 – Pilot PSP Documentation Package** to the PSP Participation Agreement.

The Pilot PSP Documentation Package provides Pilot PSPs with the functional, technical and operational documentation that forms part of the Pilot PSP Participation Agreement.

2. Scope of the PSP Pilot Documentation Package

Appendix	Title	Description
Appendix 2.A	Pilot PSP Documentation Package Scope	This appendix
Appendix 2.B	Functional Requirements	Provides for the functional and operational model of the Pilot activities. It introduces User Journeys that illustrate the functions and features of the Beta Digital Euro, sets requirements on the identification and authentication of End-Users and defines the business rules for Pilot Payment Services. These business rules are supported by End-to-End Process Flows, which are referenced in Appendix 2.B but detailed in Appendix 2.F.
Appendix 2.C	Pilot Business Architecture	Sets out the high-level architecture of the Pilot and the Pilot Payment Services to be provided by Pilot PSPs. This appendix further details the performance and reliability requirements.
Appendix 2.D	Onboarding Overview	Describes the necessary steps for a Pilot PSP to onboard to the Pilot.
Appendix 2.E	User Journeys & Minimum UX Requirements	Details User Journeys showing how Pilot Payment Services are used and specifies the Minimum UX Requirements per User Journey.
Appendix 2.F	End-to-End Process Flows	Provides complete End-to-End Process Flows covering User Journeys from initiation to completion.
Appendix 2.G	Pilot Timeline	Provides an overview of the key Pilot milestones, including a clear timeline until the end of the Pilot in 2028.
