Joint ECB Eurostat Conference on Commercial Property Price Indicators

Data Sources, Standards
and the
Progression Toward Transparency
in the
Property Capital Markets Around the Globe

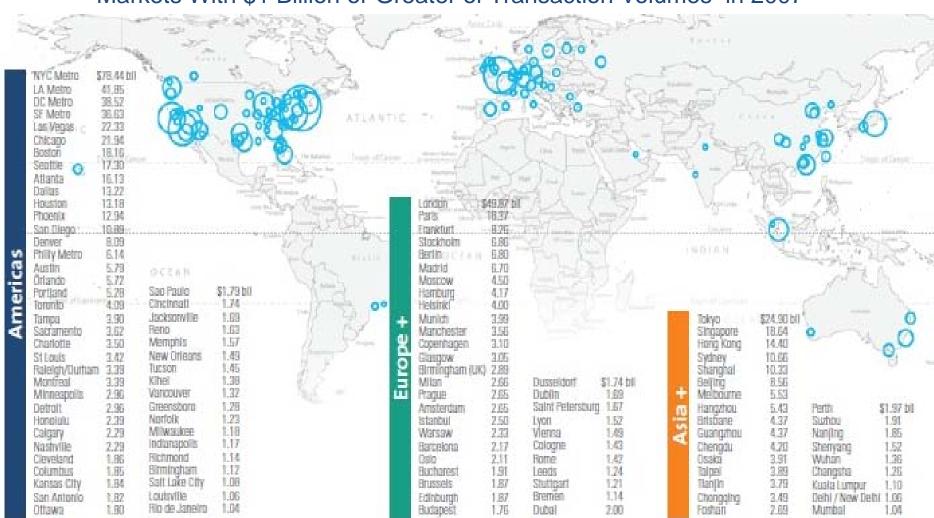

Robert M. White, Jr., CRE, FRICS

May 11, 2012 Frankfurt

Investment Markets are More Similar Than Different

Markets With \$1 Billion or Greater of Transaction Volumes in 2007

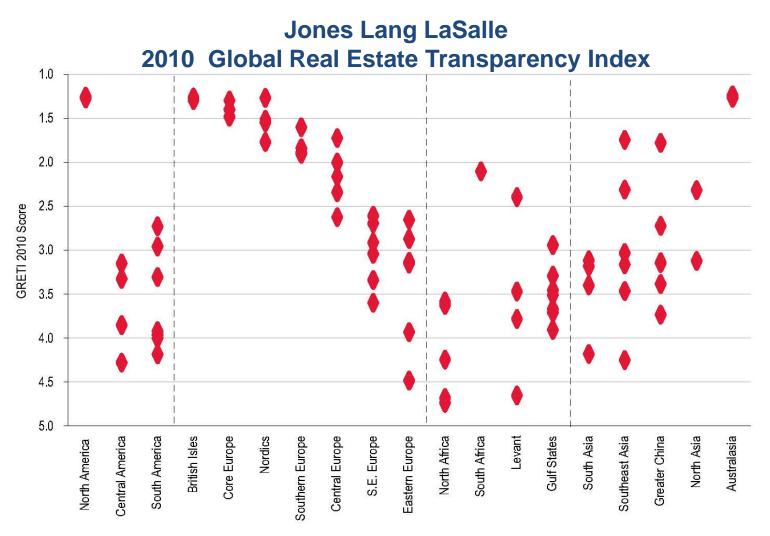

Linkages in Pricing Between Markets is Significant

Cross-Border Property Capital Flows

Transparency Improving, but Price Benchmarks Still Challenging

Sources: Jones Lang LaSalle, LaSalle Investment Management

Data Sources: Fragmented & Disparate

Sources of Commercial Property Information

Chief Challenges of Data Sources

- Often at municipal and not national level; very few international sources
- Can be dated by months and in some cases years
- Granularity and detail of data often not sufficient. Historic information limited.
- Local standards favored, universal methodology difficult to apply
- Financing data sparse, very opaque in Europe

■ Data Sources: All Types Must Be Considered

Transaction Based

Appraisal/Valuation Based

Standards Needed For Calculating Yields

Prior year, In-place, Pro-forma? Leveraged or Unleveraged?

Net or Gross?

Stabilized or Unstabilized?

Escalating Rents or Flat Rents?

Net Operating Income (NOI)

= Yield / Cap Rate

Price

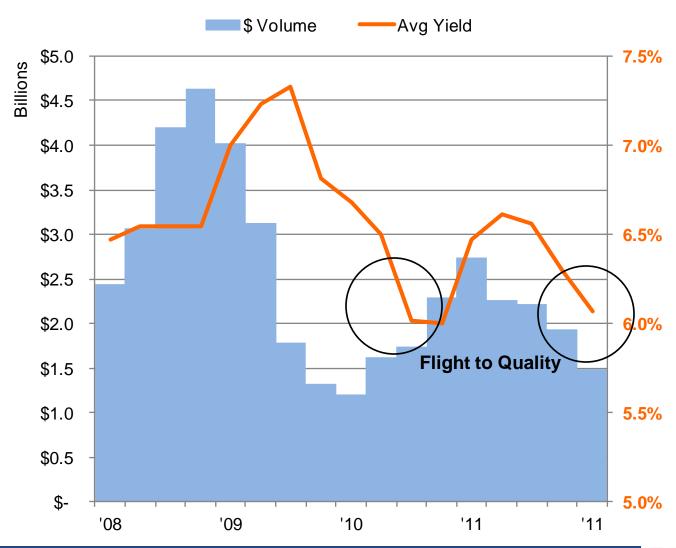

Asking, Closed, or Appraised? **Adjusted for Closing Costs** or Planned Capital Improvements?

Full or Partial Sale?

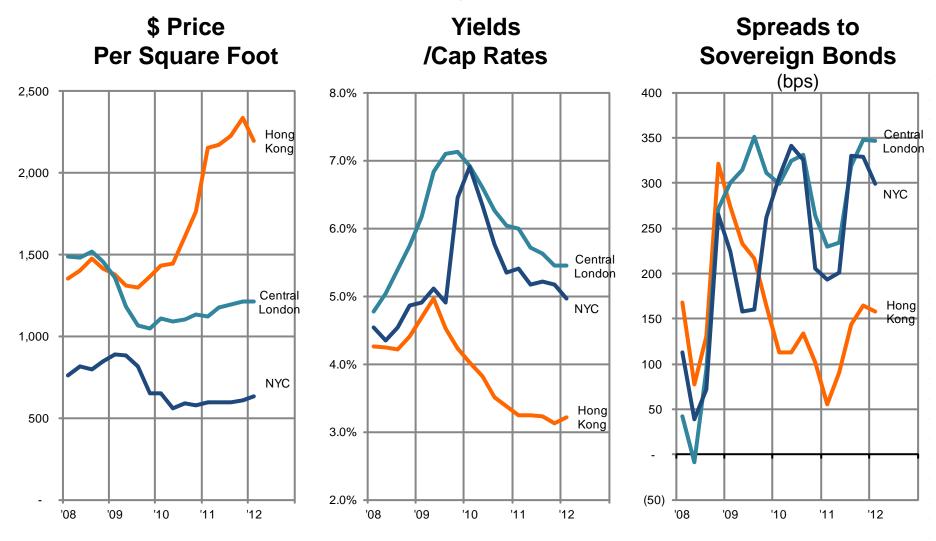

Standards Necessary to Control for Quality

Investment Trends for Benelux Retail Properties

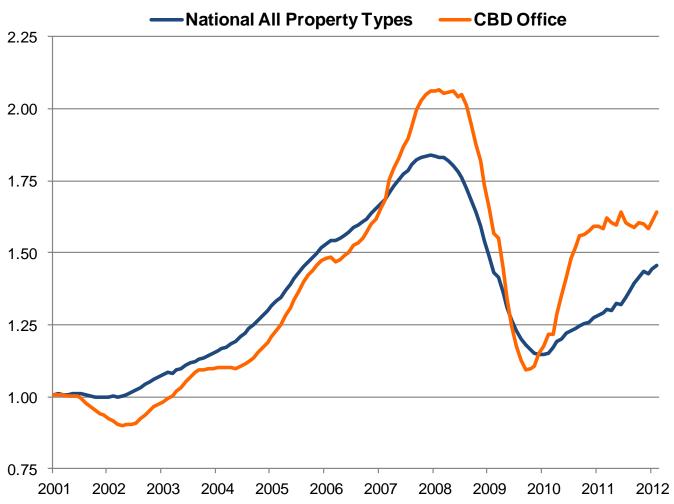

Despite Weaknesses, Yields Still Best Relative Measure

Office Prices in Major Financial Centers

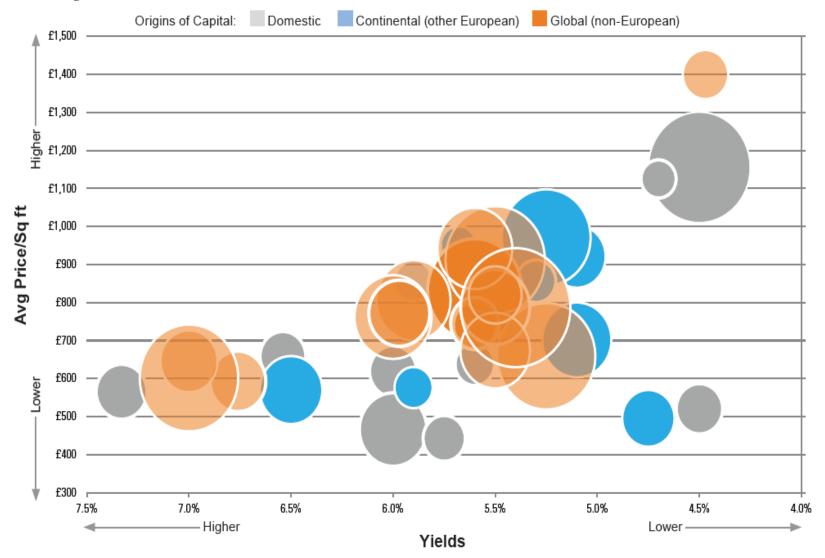

Repeat Sales Indices Also Reliable Price Benchmarks

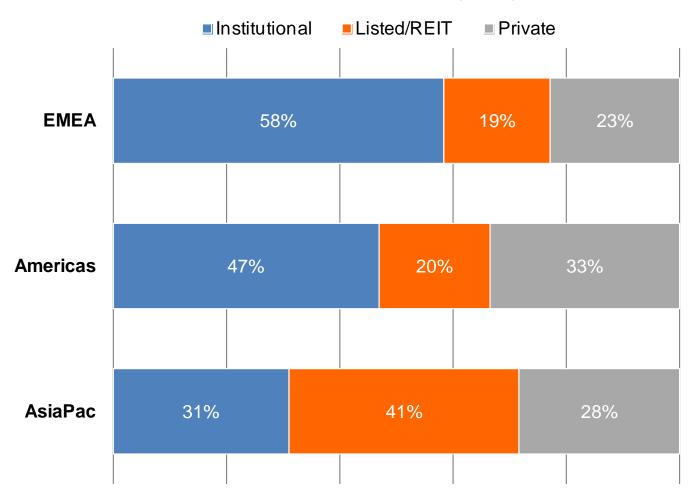

Liquid & Efficient, Central London Offices A Benchmark?

■ Major Central London Office Transactions in 2011

Sophisticated Investors Foster Transparency

Composition of Commercial Property Buyers 2007-2011

But, Standardization Currently Lags Transparency

Highest Priority of Universal Standards

- Calculating Cap Rates
- Defining Prime, Grading Asset Quality

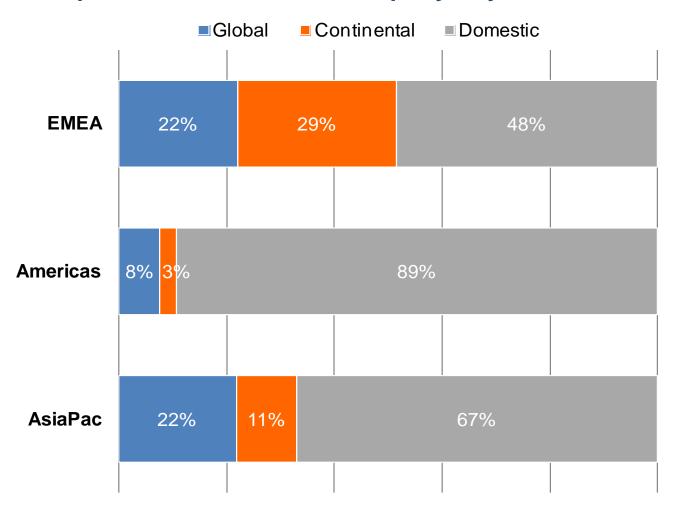

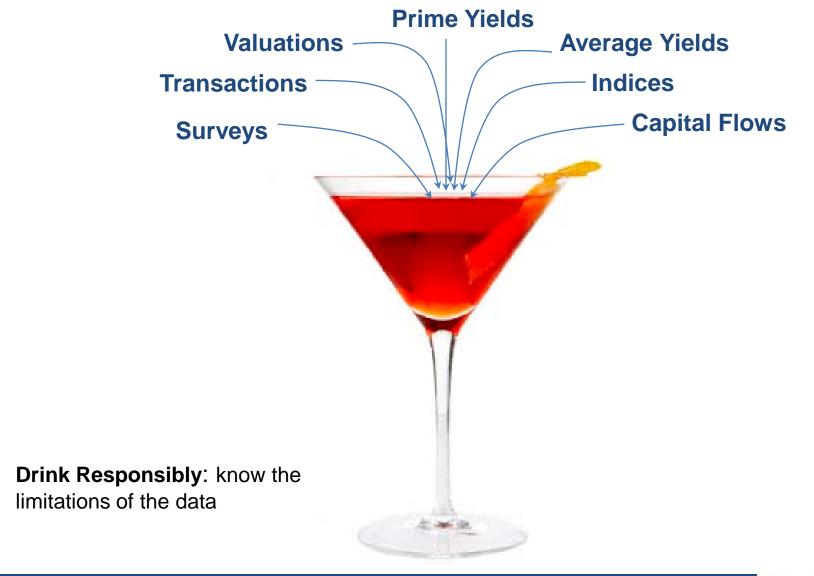

Benchmarks Should be Valid Across Markets and Borders

Composition of Commercial Property Buyers 2007-2011

No Single Benchmark is Enough, I'll have a Cocktail Too!
