Contents

1 Core variables 13

Sample information 13

SA0010 household identification number 13
SA0100 country 13
SA0200 survey vintage 13
SA0110 past household ID 13
SA0210 vintage of last interview (household) 14

1 Household Listing 14

RA0100 relationship to reference person 14
RA0010 personal ID 15
RA0020 past personal ID 15
RA0030 vintage of last interview (individual) 15
RA0040 motivation for entering the household 16
RA0200 gender 16
RA0300 age 16
RA0400 country of birth 17
RA0500 how long have you been living in the country 18
PA0100 marital status 19
PA0200 highest level of education completed 21
HDZ0310 life satisfaction 22
HA0100 financially knowledgeable person 22

2 Real assets and their financing 22

HB0100 size of household main residence 22
HB0200 how long have you been living in the household main residence 23
HB0300 main residence - tenure status 24
HB0400 is rent paid for partially owned household main residence 24
HB0410 amount of rent paid for partially owned household main residence 24
HB0500 % of ownership of household main residence 25
HB0600 way of acquiring property 25
HB0700 year of property acquisition 26
HB0800 property value at the time of its acquisition 26
HB0900 current price of household main residence 27
HBZ010x house price expectations 27
HBZ011 upper bound of household price expectation threshold 28
HBZ012 lower bound of household price expectation threshold 28
HB1000 mortgages or loans using HMR as collateral 29
HB1010 number of mortgages or loans using HMR as collateral 30

1 Core variables

Sample information

SA0010 household identification number

Reference unit: All sampled households

Coding:
Numerical value, max. 8 digits.

SA0100 country

Reference unit: All sampled households

Coding:
Two letters country code, following ISO 3166-1 alpha-2.

Survey definition:
This is the country where the household resides.

SA0200 survey vintage

Reference unit: All sampled households

Coding:
Numerical value, 4 digits.

Survey definition:
The survey vintage is the "year of reference" of the current wave, and is only used to refer to this wave with later panel observations. SA0210 will point out to the vintage SA0200 of the last interview that this household was in. The survey reference can be e.g. the year of the fieldwork, or the year of the flow variables, or some other numerical code.

SA0110 past household ID

Reference unit: Panel households
Coding:
Numerical value, max. 8 digits.

Survey definition:
To be provided as empty for countries without a panel component

SA0210  vintage of last interview (household)

Reference unit: Panel households

Coding:
Numerical value, 4 digits.

Survey definition:
To be provided as empty for countries without a panel component. See SA0200 for the definition of the survey vintage

1  Household Listing

RA0100  relationship to reference person

Reference unit: All household members

Reference period: Current

Coding:
1 - Reference person (RP)
2 - Spouse or Partner of RP
3 - Son/daughter of RP
4 - Parent of RP
5 - Parent in law of RP
6 - Grandparent of RP
7 - Grandchild of RP
8 - Brother/sister of RP
9 - Another relative of RP
10 - Other household member - not a relative of RP

Technical definition:
Spouse:
Spouse is defined as a person related by marriage (husband/wife) or alternative legal arrangement (registered partner, in countries where such an arrangement exists).
Partner:
Partner is defined as a person, other than a spouse, with whom one cohabits without being married or having alternative partnership on a legal basis to each other (domestic partner, cohabitating partner, consensual union).

Another relative:
Another relative is a person not belonging to any of the previous categories related to the RP by circumstances of birth or family relationship (e.g. aunts, uncles, cousins, son in law, daughter in law etc.).

Other household member:
Other persons, without such a family relationship, should be coded as other household members, not related to RP.

RA0010 personal ID

Reference unit: All household members

Reference period: -

Coding:
Numerical value, 2 digits

RA0020 past personal ID

Reference unit: All household members (panel)

Reference period: -

Coding:
Numerical value, 2 digits

Survey definition:
To be provided as empty for countries without a panel component.

RA0030 vintage of last interview (individual)

Reference unit: All household members (panel)

Reference period: -

Coding:
Numerical value, 4 digits
Survey definition:
The vintage refers to the "year of reference" of the particular wave of the HFCS where the person was last interviewed. It corresponds to variable SA0210. To be provided as empty for countries without a panel component.

RA0040 motivation for entering the household

Reference unit: New members of panel household

Reference period: -

Coding:
1 - New-born
2 - Other

Survey definition:
To be provided as empty for countries without a panel component.

RA0200 gender

I am required to ask: what is X’s(your) gender?

Reference unit: All household members

Reference period: Current

Coding:
1 - Male
2 - Female

RA0300 age

What is X’s(your) age?

Reference unit: All household members

Reference period: Current

Coding:
Numerical value, 3 digits.

Technical definition:
Age of the person at the time of the interview.
RA0400 country of birth

In which country was(were) X(you) born?

Reference unit: All household members

Reference period: Current

Coding:

Two or three characters country code (using the ISO 3166-1 alpha-2 for two-letter codes for individual countries and the EU-SILC three-letter codes for groups of countries)

Survey definition:

Country of birth is the country where a person was born, defined as the country of usual residence of mother at the time of the birth, or, by default, the country in which the birth occurred. Information on country of birth should be obtained in accordance with the national boundaries existing at the time of data collection.

The country of birth of a person who was born during the mother's short-term visit to a country other than her usual country of residence, should be the country where mother had her place of usual residence.

Particular care is needed in the cases where national boundaries have changed and/or where previously existing countries have split to form two or more new countries. As a rule, person should not be regarded as foreign-born simply because the national boundaries of the country of birth have changed. Persons who migrated before the border change or break-up of a former country should be distinguished from those who did so after these changes. Care should be taken to ensure that persons who have only undertaken internal migrations (non international migrants) within the borders of the former country are not wrongly counted as international migrants.

[Source: Eurostat, Core Social Variables, Updated 2011 Guidelines]

The code for the country of birth should correspond to the two-letter ISO code 3166-2 alpha-2 [https://en.wikipedia.org/wiki/ISO_3166-1_alpha-2]. In particular, GR should be used for Greece.

For groups of countries, the classification in EU-SILC (see Regulation EC 1983/2003) should be used:

- OEA Other euro area Countries
- OEU Other non-Euro area European Union Countries
- NAF North Africa (Algeria, Egypt, Libyan Arab Jamahiriya, Morocco, Sudan, Tunisia, Western Sahara)
Technical definition:

Country of birth would in most of the cases correspond to the actual country of birth. The exception is in case of persons born during a short visit or birth related visit of the mother. Then, place of usual residence of the mother should be coded instead.

For coding country of birth of immigrants, the current states and their borders are to be used (e.g. person born in Ljubljana in 1980 would be coded as SI for Slovenia / OEA Other Euro Area, person born in Prague in the same year as CZ / Other European Union Countries. Etc.)

A special care may be needed in survey countries whose borders have moved or which were established by split of previously existing countries. In case of changed borders, persons born on the territory of the survey country at the time of their birth and now residing in the survey country, should be coded as born in the survey country (despite the fact that the territory does no longer belong to the survey country nowadays, the preference here is not to code them as foreign born).

RA0500 how long have you been living in the country

For how many years (have you/has X) lived in <SA0100 country in which the interview is taking place>?

Reference unit: All household members

Reference period: Current
Coding:
Numerical value, 3 digits.

Filtering: IF (RA0400 <> SA0100)

Survey definition:
Number of years the person has been living in the country.

Technical definition:
In case of repeated stays in the country of interview, the answer should reflect the total length where the respondent has lived in the country as the sum of all stays longer than 6 months. In case no stay has lasted more than 6 months, code zero.

Example: if respondent studied in the country 5 years, then left the country to come back after some time, the total length of stay should include those 5 years of his/her studies

PA0100 marital status

What is X's(your) marital status?

Reference unit: All 16+

Reference period: Current

Coding:
1 - Single/never married
2 - Married
3 - Consensual union on a legal basis
4 - Widowed
5 - Divorced

Survey definition:
Marital status is usually understood as legal marital status, which is defined as the (legal) conjugal status of each individual in relation to the marriage laws (or customs) of the country (i.e. de jure status).

Four main marital statuses can be distinguished: single (never married), married, widowed and divorced. Other legal marital statuses may exist in some countries - like registered/legal partnership or legally separated.

In addition to the de-jure marital status, a second distinct concept of marital status exists - de facto marital status. It is defined as the marital status of each individual in terms of his or her actual living arrangements within the household rather than in terms of a legal status of persons. The key classification criterion is the fact whether
person lives in a union with a partner or not. De-facto marital status then distinguishes between partnership with a legal basis and consensual union (co-habitation).

[Source: Eurostat, Core Social Variables]

**Technical definition:**

The variable includes legal (de-jure) marital status of the respondent classified under the four main legal marital statuses, plus consensual union on a legal basis:

* Single (never married).
* Married.
* Consensual union on a legal basis (includes registered partnerships or other similar national legal arrangements – if existing in a given country)
* Widowed and not remarried nor in a consensual union on a legal basis (including widowed from registered partnership, where applicable).
* Divorced and not remarried nor in a consensual union on a legal basis (including legally separated and dissolved registered partnership, where applicable).

In case legally separated constitutes a special legal marital status (as it is in some countries), information on these may collected separately but will be thereafter classified under divorced. Married persons not living with their spouse will, however, be classified according to their de-jure status as married. In this respect, the de-jure marital status may not necessarily correspond with the actual situation of the household in terms of co-habitation, arrangements, etc.

**NOTE:** the actual co-habitation and household arrangements (particularly with respect to informal cohabitation arrangements not covered by legal marital status) can be derived from the relationship of other household members to the reference person. The Eurostat’s Core social Variables works with the following aggregated classification of household types:

1 One-person household

2 Multi-person household
   2.1. Lone parent with child(ren) aged less than 25
   2.2. Couple without child(ren) aged less than 25
   2.3. Couple with child(ren) aged less than 25
   2.4. Couple or lone parent with child(ren) aged less than 25 and other persons living in household*
       2.5 Other type of household**

* Category "other persons" includes all persons in household who are not children of that couple or lone parent or partner in that couple.
** Category "Other type of household" includes all other households without parent-child relationship.
PA0200  highest level of education completed

What is the highest level of education (you/he/she) (has/have) completed?

**Reference unit:** All 16+

**Reference period:** Current

**Coding:**

Categories based on ISCED-2011 classification:

1 - Early childhood education or no education (0) or Primary education (1)
2 - Lower secondary education
3 - Upper secondary education (3) or Post-secondary non-tertiary education (4)
5 - Short-cycle tertiary education (5) or Bachelor or equivalent (6) or Master or equivalent (7) or Doctoral or equivalent (8)

**Survey definition:**

The highest level of education of one person is defined as the highest attainment of an educational programme the person has successfully completed.

The educational classification to be used is the International Standard Classification of Education (ISCED 2011) coded according to the nine ISCED-2011 categories. The basic unit of classification in ISCED-2011 is the educational programme. Educational programmes are defined on the basis of their educational content as an array or sequence of educational activities, which are organised to accomplish a pre-determined objective or a specified set of educational tasks.

ISCED-2011 provides an improved set of criteria for assigning individual programmes to ‘levels’ of education (the more practical steps for the coding according to ISCED-2011 can be found in the ISCED-2011 manual published by UNESCO

**Technical definition:**

The variable uses the ISCED-2011 International Standard Classification of Education.

ISCED categories cannot be asked directly in the questionnaire, answer categories will have to reflect the structure of each national system of education. In each country, an official "mapping" exists of the national system of education into the international ISCED scheme, which is used for compiling EU statistics on education and in surveys coordinated by Eurostat. This "mapping" is to be used as a reference for recoding of answers from national questionnaire into the harmonised ISCED-based output.
The expression "level successfully completed" must be associated with obtaining a certificate or a diploma, when there is a certification. In cases where there is no certification, successful completion must be associated with full attendance.

When determining the highest level, both general and vocational education/training should be taken into consideration.

Persons who have not completed their studies should be coded according to the highest level they have completed.

**HDZ0310  life satisfaction**

*On a scale from 0 to 10, how satisfied are you overall with your life? where "zero" means totally dissatisfied and "10" means entirely satisfied.*

**Reference unit:** Household

**Coding:**

Numeric value, integer 0 to 10

**HA0100  financially knowledgeable person**

**Reference unit:** Household

**Coding:**

Numerical value of the RA0010 personal ID (2 digits), if the FKP is a member of the household

**Survey definition:**

The financially knowledgeable person (FKP) is the person best suited to provide information on the finances of the household. The FKP may or may not be a member of the household (see SCREENER).

## 2  Real assets and their financing

**HB0100  size of household main residence**

*I am going to ask you about your main residence, that is the place where you (and your household) live for most of the year.*

*What is the size of the residence in square meters?*

**Reference unit:** Household
Reference period: Current

Coding:

Numerical value in square meters, 5 digits.

Survey definition:

The size of the residence is the useful floor space that can be exclusively used by you/your household, measured in square meters.

Technical definition:

Main residence

The household main residence is defined as the dwelling where the members of the household usually live, typically a house or an apartment. A household can only have one main residence at any given time, although they may share the residence with people not belonging to the household.

While the main residence of most households is clear, there are cases for which it is not, e.g. for frequent travellers or people living in multiple houses. In these latter cases, criteria for the identification of the household’s main residence would consist mostly of guidelines rather than hard rules. For those cases, the main residence has to be determined on a case-by-case basis. Possible factors include: time spent at residence per year, mailing address, tax status, telephone listing, voting registration, location of personal effects, and stated purpose of residence on insurance policies.

Size of the residence: it is the internal habitable area, in square meters. The dwelling size refers to the useful floor space using the same definition as for the population and housing census and as recommended in the Programme of Current Housing and Building Statistics for Countries in the UNECE Region (Statistical Standards and Studies No. 43). Useful floor space: The floor space measured inside the outer walls excluding non-habitable cellars and attics and, in multi-dwelling buildings, all common spaces. Household should declare the area of dwelling that can be exclusively used.

HB0200 how long have you been living in the household main residence

How long have you (or anyone in the household) been living in this residence? [enter the length of stay in years]

Reference unit: Household

Reference period: Current

Coding:

Numerical value, 2 digits (for years).
HB0300 main residence - tenure status

Do you (or anyone in the household) own all or part of the residence, do you rent it, or do you use it for free?

[INTERVIEWER: IF BOTH "OWN PART" AND "RENT" APPLICABLE, SELECT "OWN PART"; IF "FREE USE" ASK AND MAKE A NOTE TO SPECIFY WHETHER HOUSING PROVIDED AS PART OF JOB BENEFITS OR WHETHER PROVIDED BY FAMILY/FRIENDS/CHARITIES/STATE/ETC.]

Reference unit: Household

Reference period: Current

Coding:

1 - Own all
2 - Own part
3 - Rented / Sublet
4 - Free use (specify)

Technical definition:

Free use: free use should include usufruct.

HB0400 is rent paid for partially owned household main residence

(Do you/Does your household) pay any rent for the part owned by others?

Reference unit: Household

Reference period: Current

Coding:

1 - Yes
2 - No

Filtering: IF (HB0300 = 2)

HB0410 amount of rent paid for partially owned household main residence

What is the monthly amount paid as rent (please exclude utilities, heating, etc. if possible)?

(Alternative interviewing: ask another frequency, as appropriate, and convert it to monthly amount).

Reference unit: Household
HFCS Documentation, Core and derived variables, 2017 Wave 25

**Reference period:** Current

**Coding:**

Numerical value in EUR, 6 digits.

**Filtering:** IF (HB0400 = 1)

**HB0500** % of ownership of household main residence

What percentage of the value of the residence belongs to (you/your household)?

**Reference unit:** Household

**Reference period:** Current

**Coding:**

Numerical value, 4 digits, 2 decimal places

**Filtering:** IF (HB0300 = 2)

**HB0600** way of acquiring property

How (did you/your household) acquire the (part of the) residence (you own/your household owns): did you purchase it, did you construct it yourself, did you inherit it or did you receive it as a gift?

IF PARTLY INHERITED/RECEIVED AS A GIFT AND PARTLY PAID FOR IT, PROBE: Which option accounts for the largest part of what (you own/your household owns)?

**Reference unit:** Household

**Reference period:** -

**Coding:**

1 - Purchased
2 - Own construction
3 - Inherited
4 - Gift
5 - 50% PURCHASED OR CONSTRUCTED/50% INHERITED OR RECEIVED AS A GIFT [SILENT]

**Filtering:** IF ((HB0300 = 1) OR (HB0300=2))

**Survey definition:**
Own construction: refers to the case where the household bought the land, and constructed the residence, either by themselves, with friends and family, or through hired contractors. The case of an existing construction that was demolished or greatly and significantly reconstructed should be counted as Own construction too. A residence that was bought before construction but to be delivered in a finished state to the household (as can be the case of apartments bought “on plans”) should be counted as “Purchased”.

**HB0700**  
**year of property acquisition**

In what year did you (or someone in your current household) acquire the residence or buy the land it is on?

**IF THE RESIDENCE WAS ACQUIRED IN MULTIPLE STEPS, PROBE:** Please tell me the year in which you (or any current household member) first acquired ownership of part of the property.

**Reference unit:** Household  
**Reference period:** -  
**Coding:**  
Numerical value, 4 digits.

**Filtering:** IF ((HB0300 = 1) OR (HB0300=2))

**Technical definition:**

If the household main residence was acquired or constructed in multiple steps, the year should refer to the first year when ownership of part of the household main residence was acquired by some current household member. If land for construction of the HMR was acquired prior to the construction of the residence, the year of acquisition of the land should be coded as the first year of acquisition of part of the current HMR property.

**HB0800**  
**property value at the time of its acquisition**

**Coding:**

1 - Yes
2 - No

**Filtering:** IF ((HB0300 = 1) OR (HB0300=2))

**Technical definition:**

Mortgage loans

Mortgage loans are a very common type of debt instrument used by many individuals to borrow money to purchase a property. The financial institution is given security by housing until the mortgage is paid off in full. Under a mortgage loan, the lender has the possibility to sell (foreclose, repossess or seize) the property under certain circumstances (principally, non-payment of the mortgage loan) and to apply the amount received to the original debt.

Mortgage lending is the primary mechanism used in many countries to finance private ownership of residential property. Although the terminology and precise forms will differ from country to country, the basic components tend to be similar.

**Collateral**

Refers to an asset or a set of assets that are pledged as a guarantee for the repayment of loans. A house, a car, a property, or equipment are all examples of tangible assets that could be used as collateral. In case you are unable to pay off the loan as scheduled, the assets used as collateral will be seized and sold, and the money raised by selling the assets will be used to repay the loan.

Only mortgages taken by household members are taken into account. If the HMR is used as collateral for mortgages of persons, who are not members of the household...
(HMR used as collateral to loans for son, daughter, other relative, who are not members of the household), these contingent liabilities should not be included among household's mortgage debt. It is only if and when such contingent debt materialises and the members of the household have to step up to take responsibility for the debt, that the mortgage should be reported as part of household's debt.

If HMR is used as collateral together with some other properties, include the loan as collateralised on household main residence.

**HB1010** number of mortgages or loans using HMR as collateral

Technical definition:

Item 6 - Debt consolidation

Debt consolidation is the practice of taking out one unique loan to pay off several others. This is often done to secure a lower interest rate, secure a fixed interest rate or for the convenience of servicing only one loan within the same household. Debt consolidation can simply be from a number of unsecured loans into another unsecured loan, but more often it involves a secured loan against an asset that serves as collateral, most commonly a house, so as to obtain a lower interest from the lender(s). (For example: the idea is that instead of a number of high-interest loans, you take out one large low-rate loan or a top-up loan from your mortgage lender.)

HB110$x  HMR mortgage $x: mortgage refinancing

Does this loan refinance a previous loan, that is, did this loan replace a previous loan [that had this property as collateral]? BORROWERS SOMETIMES TAKE OUT NEW LOANS TO PAY OFF EXISTING ONES, TAKING ADVANTAGE OF BETTER CONDITIONS, FOR EXAMPLE INTEREST RATE, TERM, AND AMOUNT.

**Filtering:** IF ((HB1010 > $x-1) AND (HB110$x = 1))

**Survey definition:**

Debt (loan) refinancing

Debt refinancing refers to the conversion of the original debt including arrears, into a new debt instrument. In other words, overdue payments or future debt-service obligations are "paid off" using a new debt obligation.

[Source: Eurostat's Concepts and Definitions Database (CODED), metadata server, RAMON, http://ec.europa.eu/eurostat/ramon/index.cfm?TargetUrl=DSP_PUB_WELC. No official definition provided in ESA95 (only mentioned in paragraph 5.81).]

**Technical definition:**

Debt (loan) refinancing
To refinance a loan means paying off an existing loan with the proceeds from a new loan, usually of the same size (but could also be larger, if the borrower needs more
money, or lower, if additional resources to the new mortgage are used to pay back the previous one). Replacing a loan usually allows the borrower to benefit from better terms, possibly in terms of a lower interest rate and/or a longer pay-off period.

Note: A reverse mortgage is a special type of home loan that lets you convert a portion of the equity in your home into cash.

**HB130$x**  
**HMR mortgage $x: year when loan taken/refinanced**

- **<IF HB110$x=2>** When did (you/your household) take out the mortgage?
- **<IF HB110$x=1>** When did (you/your household) refinance the earlier loan
- **<IF HB110$x=-1 or -2>** When did (you/your household) take out the mortgage or most recently refinance it?
- **<IF HB110$x=-1 or -2>** When did (you/your household) take out the mortgage, or most recently refinance it?

**INTERVIEWER:** IF THE LOAN WAS REFINANCED, WE WANT THE DATE THE CURRENT LOAN WAS MOST RECENTLY REFINANCED. IF IT WAS RENEGOTIATED, WE WANT THE DATE OF THE INITIAL LOAN.

**INTERVIEWER:** IN THE CASE OF A REVERSE MORTGAGE, ASK THE DATE THAT THE PAYMENTS TO THE HOUSEHOLD Began

Reference period: Current

Loop: Loop for other property $x$ mortgages

Coding:

Numerical value, 5 digits, 3 decimal places.

Filtering: IF (HB301$x > $y-1)

HB400$x$y other property $x$ mortgage $y$: monthly payment on loan

At present, how much is the monthly payment on the loan including both interest and repayment and excluding any required payments for taxes, insurance or other fees?

(INTERVIEWING STRATEGY: THE FREQUENCY FOR THE INFORMATION COLLECTED IN NATIONAL QUESTIONNAIRES MAY VARY (AS APPROPRIATE) WHILE THE OUTPUT VARIABLE TO BE REPORTED TO THE ECB IS ALWAYS DEFINED IN TERMS OF MONTHLY AMOUNTS)

Reference unit: Household
Reference period: Current

Loop: Loop for other property $x$ mortgages

Coding:
Numerical value in EUR, 6 digits.

Filtering: IF (HB301$x > $y-1)

Technical definition:
If the monthly payment on the loan has changed over time over the duration of the loan, it is the amount paid at present which is to be coded in this variable.

HB2900 additional properties current value

If (you/your household) decided to sell the <HB2410 minus 2(3)> (property/properties) you told me about, how much do you think would be the price for the part (you own/your household owns)?

Reference unit: Household

Reference period: Current

Coding:
Numerical value in EUR, 9 digits.

Filtering: IF (HB2410 > $loops)

HB4099 other loans on other properties

Are there currently any other outstanding mortgages or loans that use any of your properties as collateral, that you have not already mentioned?

INTERVIEWER: IF MULTIPLE ITEMS ARE USED AS COLLATERAL, CODE YES HERE AND MAKE A NOTE.

Reference unit: Household

Reference period: Current

Coding:
1 - Yes
2 - No

Filtering: IF ((HB3011 > $loops OR HB3012 > $loops OR HB301$loops > $loops) OR HB2410 > $loops)
**Technical definition:**

This question does not need to be asked if we know that the household has already reported that it has more than 3 loans in any of the 3 other properties, and in that case the questionnaire should proceed straight with HB4105.

The question also does not need to be asked to households that have three properties or less and in all these properties have 3 loans or less, since these households cannot have other loans using any of their other properties as collateral. The questionnaire should then go to HB4300.

Only in the case where the household has both more than 3 other properties but in the three reported ones has 3 loans or less need this question be asked.

If some other number of loops than 3 is being used, replace the numbers in the filters by the appropriate value.

**HB4105 money still owed on additional other properties loans**

```<IF ANY OF THE REPORTED HB301$x>3 >You previously mentioned that you had other loans on these other properties, but you did not describe them in detail.]
```

What is the amount still owed on this or these other loans altogether? (That is, if you repaid it completely now, how much would you have to pay?)

**INTERVIEWER:** THE AMOUNT WE WANT IS THE OUTSTANDING PRINCIPAL EXCLUDING INTEREST, FEES, ETC., NOT THE SUM OF FUTURE PAYMENTS

**Reference unit:** Household

HC0100  household has a leasing contract

(Do you/does any member of your household) currently have any leasing contract (e.g. on a car, etc.)?

Reference unit: Household

Reference period: Current

Coding:

1 - Yes
2 - No

Survey definition:

Leasing

Leasing is defined for statistical purposes as financial leasing when the leasing period covers all or most of the economic lifetime of the durable good. At the end of the leasing period, the lessee often has the option to buy the good at a nominal price (ESA 2010, Chapter 15).
Hire purchase

A durable good is sold to a purchaser in return for agreed future payments. The buyer takes possession of the good immediately, though in law it remains the property of the seller or financier as collateral/guarantee until all agreed payments have been made. Hire purchase is usually restricted to consumer durables, and most purchasers are households. Financers of hire purchase contracts typically are separate institutional units operating in close co-operation with sellers of durable goods.

http://ec.europa.eu/eurostat/web/esa-2010]

HC0110  monthly leasing payments

What is the total amount of the lease payments per month? (< IF HB0300=2, 3 (PART OWNER, RENTER) > Please, exclude any rent paid on the household residence)

[ALTERNATIVE INTERVIEWING: ASK ANOTHER FREQUENCY, AS APPROPRIATE, AND CONVERT IT TO MONTHLY AMOUNT]

Reference unit: Household

Reference period: Current

Coding:

Numerical value in EUR, 6 digits.

Filtering: IF (HC0100 = 1)

HC0200 household has credit line or overdraft

Do you or any other member of the household have a credit line or [a sight account/an account with an overdraft facility with a financial institution]? CREDIT CARDS ARE NOT TO BE INCLUDED IN THIS ITEM

Reference unit: Household

Reference period: Current
Coding:
1 - Yes
2 - No

Survey definition:

Credit lines
Credit lines are usually linked to a bank overdraft. They may also be granted on the basis of an ‘umbrella contract’ allowing the customer to draw loans on several types of loan accounts up to a certain maximum amount applying to all loan accounts together. At the time of the agreement on such an umbrella contract, the form the credit will take and/or the time at which the credit will be drawn and/or the interest rate are not specified, but a range of possibilities might be agreed.

Bank overdrafts
Bank overdrafts shall be defined as debit balances on current accounts. Bank overdrafts shall be without defined maturity and, in general, authorised but taken without giving prior notice to the bank. Usually, the credit or other institution shall define an upper limit for the size and the maximum period of the bank overdraft the household or non-financial corporation may accumulate.

Technical definition:

Credit lines
A credit line /line of credit is a type of credit in which a bank undertakes to provide credit to a client during a predefined period. The client may either withdraw the credit amount all at once, or make a certain number of withdrawals during the specified period.

Bank overdrafts
Bank account overdraft: the household is currently maintaining a negative balance on one of its bank accounts. Interest is charged on the amount owed. The bank account does not need to be a current account.
(Note: for the survey purposes the linked account does not need to be a current account).
If the household has negative account balances on a bank account, these should be taken as overdrafts and reported as debt in HC0200 and HC0210 (be it standard overdraft facility agreed with the bank, or unauthorised overdraft).
**HC0210**  household has outstanding credit line/overdraft balance

At present, is there any balance outstanding on any of (your/your household’s) accounts of these types?

*Reference unit:* Household

*Reference period:* Current

*Coding:*

1 - Yes
2 - No

*Filtering:* IF (HC0200 = 1)

**HC0220**  amount of outstanding credit line/overdraft balance

*Filtering:* IF (HC0210 = 1)

**HC0300**  household has a credit card

Do you or any other member of the household have credit cards other than ones paid by employers? (Do not consider here debit cards, i.e. cards where the money spent is immediately deducted from your bank account).

**INTERVIEWING STRATEGY:** THE QUESTIONS ON THE CREDIT CARDS CAN BE ASKED PERSON BY PERSON AND AGGREGATED INTO THE CORE VARIABLES.

*Reference unit:* Household

*Reference period:* Current

*Coding:*

1 - Yes
2 - No

*Survey definition:*
Cards with credit function

Credit function: It enables cardholders to make purchases and/or withdraw cash up to a prearranged ceiling. The credit granted may be settled in full by the end of a specified period or may be settled in part, with the balance taken as extended credit on which interest is usually charged.

Technical definition:

Credit/store cards

Credit cards (Visa, Amex, Master Card, Diners, etc.) provide a specific credit facility: money is lent to people between the time they purchase goods and the time of full repayment of the amount; interest is to be paid on any balance that is not cleared at the end of the month. There are monthly statements for the money spent specifying the minimum amount to be paid. Credit cards are not bank debit cards, where the money spent on the card is immediately deducted from a linked bank account.

Store cards are credit cards issued by a single company/store and can only be used for payments to that company/store.

HC0310 household has outstanding balance on credit cards

After paying the most recent (monthly) bill or bills, was there any balance outstanding on (your/your household’s) credit card(s) for which you are charged interest?

Reference unit: Household

Reference period: Current

Coding:

1 - Yes
2 - No

Filtering: IF (HC0300 = 1)

HC0320 amount of outstanding credit cards balance

How much is currently outstanding?

Reference unit: Household
**Reference period:** Current

**Coding:**

Numerical value in EUR, 6 digits.

**Filtering:** IF (HC0310 = 1)

**Technical definition:**

The amount refers to all outstanding debt on the credit card as at the moment of the interview, but excluding so-called regular transactions that have taken place during the last month and that will be normally settled in the following month. The intention is to separate delayed payments from actual debt.

HC0400 has any non-collateralised loans

(Other than loans I have already recorded), do you have any (other) loans or owe any (other) money (e.g. car loans, consumer loans, instalment loans, employer loans, etc.)?

INTERVIEWER: OTHER LOANS TAKEN TO FINANCE A BUSINESS SHOULD ALSO BE INCLUDED HERE. BILLS THAT ARE LESS THAN 30 DAYS OVERDUE SHOULD NOT BE INCLUDED AS LOANS.

Reference unit: Household
Reference period: Current
Coding:
1 - Yes
2 - No

Technical definition:
This variable covers the following types of unsecured loans:
Consumer / personal / instalment loans
You borrow a fixed amount of money and usually have to repay it in fixed instalments over a set period (the term). In most cases, you do not have to have a current account with the bank but you may with a credit union. The interest you pay might be fixed or variable and rates for loans secured by property might be lower than unsecured.

You will be charged interest on what you borrow, usually monthly. The interest rate varies depending on the type of loan. You can use the APR (Annual Percentage Rate) to help you shop around for the best deal. APR tells you the cost of the loan taking into account the interest on the loan and other charges. Repayments are usually by standing order or direct debit from your bank account.

Other loans from a bank or credit institution

Loans from credit unions

Loans from other money lenders: generally short-term loans for small amounts that you pay back within six months or a year. Usually collected weekly with a higher interest rate (compared to bank credit)

Student loans from a bank and student loans from government.

4 Private businesses and financial assets

HD0200 investments in non-traded self-employment businesses with an active role

(Do you/Does anyone in your household) own all or part of any business that is not publicly traded where you have an active role in running the business?

**Reference unit:** Household

**Reference period:** Current

**Coding:**

1 - Yes  
2 - No

**Technical definition:**
The question covers self-employment businesses (run as sole proprietorship, as independent professional or in partnership, active participation in running limited liability companies).

Publicly traded are businesses whose shares are listed on a stock exchange or other form of secondary market, i.e. they can be bought and sold there. Not publicly traded businesses are then all businesses the shares of which are not publicly traded - it therefore includes all types of businesses except of those with listed shares.

**HD0210 how many self-employment businesses**

How many such businesses (do you/ does someone in your household) own entirely or in part?

HD1100  household owns sight accounts

< IF HC0200=1 [HH has credit lines or accounts with overdraft facilities] (SKIP QUESTION AND GO DIRECTLY TO HD1110) >

(Do you/Does anyone in your household) have a sight account? Such accounts may also be called current accounts, draft accounts, or checking accounts.

Reference unit: Household

Reference period: Current

Coding:
Survey definition:

Sight account
Sight accounts are equivalent to ‘transferable deposits’ within the ‘overnight deposits’ category in the BSI statistics. Transferable deposits are understood to be deposits which are directly transferable on demand to make payments to other economic agents by commonly used means of payment, such as credit transfer and direct debit, possibly also by credit or debit card, e-money transactions, cheques, or similar means, without significant delay, restriction or penalty.

Technical definition:

Sight account
Sight accounts include all deposits usually at a bank, savings bank, credit institutions, mutual bank, insurance company, against which the account holder is permitted to make daily withdrawals (from the bank counter or ATM machines) and make transfers for the purpose of making payments to third persons or others, or transfers to other accounts. Usually these accounts have typical names in each country as e.g. (DE) Bankkonto, (DE) Girokonto, (FR) Compte chèques.

HD1110 value of sight accounts

If the account balance(s) is(are) only negative, zero is to be reported on the assets side in HD1110.

**HD1200 household owns savings accounts**

Aside from mutual funds, (do you/does anyone in your household) have any saving accounts, time deposits, certificates of deposit or other such deposits?

**Reference unit:** Household

**Reference period:** Current

**Coding:**

1 - Yes
2 - No

**Survey definition:**

Saving deposits
Savings deposits are equivalent to deposits redeemable at notice as defined in Regulation ECB/2013/33 together with non-transferable overnight deposits. Deposits redeemable at notice are non-transferable deposits without any agreed maturity which cannot be converted into currency without a period of prior notice, before the expiry the conversion into currency is not possible or possible only with a penalty. Non-transferable overnight deposits are those deposits that are not directly useable to make payments.

Time deposits
Time deposits are equivalent to deposits with agreed maturity as defined in Regulation ECB/2013/33. They are non-transferable deposits which cannot be converted into currency before an agreed fixed term or that can only be converted into currency before that agreed term provided that the holder is charged some kind of penalty.

[Source: ECB, Regulation ECB/2013/33 concerning the balance sheet of the monetary financial institutions sector (as last amended) and Regulation ECB/2013/34 concerning statistics on interest rates applied by monetary financial institutions to

**Technical definition:**

**Saving deposits**
Include all money deposits usually at a bank, savings bank, credit institutions, mutual bank, etc., against which the account holder is permitted to make daily withdrawals (from the bank counter or ATM machines) but not to make transfers for the purpose of making payments to third persons or others. Usually these accounts have typical names in each country as e.g. (DE) Sparkonto, (DE) Sparbuch, (DE) Tagesgeldkonto, (FR)Livret d’épargne.

**Time deposits**
Money deposit usually at a bank, savings bank, credit institutions, mutual bank, that cannot be withdrawn for a certain “term” or period of time. When the term is over it can be withdrawn or it can be held for another term. Typical names are: (BE) Termijnrekening, (DE) Sparbrief, (DE) Sparkassenbrief.

Saving accounts and deposits in banks abroad are also included here.

Reference period: Current

Coding:
1 - Yes
2 - No

Survey definition:

Mutual fund
Mutual fund is equivalent to Money Market Funds in Regulation ECB/2013/33 and in Regulation ECB/2013/38. Money market funds are defined as those collective investment undertakings the shares/units of which are, in terms of liquidity, close substitutes for deposits and which primarily invest in money market instruments and/or in MMF shares/units and/or in other transferable debt instruments with a residual maturity of up to and including one year and/or in bank deposits and/or which pursue a rate of return that approaches the interest rate of money market instruments. Investment funds shall mean a collective investment undertaking that a) invests in financial and non-financial assets to the extent that its objective is investing capital raised from the public and b) is constituted pursuant to Community or national law under: i) contract law (as a common fund managed by management companies); ii) trust law (as a unit trust); iii) company law (as an investment company); or iv) any other similar mechanism.

Mutual fund share/unit:
Equivalent to the sum of the category "money market fund shares/units" in Regulation ECB/2013/33 and "IF shares/units" in Regulation ECB/2007/8. "MMF shares/units" are defined as units issued by MMFs. "IF shares and units" are defined as "shares or units, including in the form of equity capital, issued by IFs that are included in the list of IFs for statistical purposes. This item represents the total liability to the IF’s shareholders. Funds arising from non-distributed benefits or funds set aside by reporting IFs in anticipation of likely future payments and obligations are also included."

Technical definition:

Mutual fund
A form of collective investment that pools money from many investors and invests their money in stocks, bonds, short-term money-market instruments, and/or other
securities. In a mutual fund, the fund manager trades the fund’s underlying securities, realizing capital gains or losses, and collects the dividend or interest income. The investment proceeds are then passed along to the individual investors. The value of a share of the mutual fund, known as the net asset value per share (NAV), is calculated daily based on the total value of the fund divided by the number of shares currently issued and outstanding.

Mutual funds abroad are also included here.

**HD1310x types of mutual funds**

**What types of such funds (do you/does your household) have: funds predominantly investing in equity, in bonds, in short-term debt and other money market instruments (e.g. money market funds), in real estate, hedge funds or other types of funds?**

2 - No

Survey definition:

Bonds
Bonds is equivalent to the category ‘debt securities issued’ and ‘securities other than shares’ in Regulation ECB/2013/33.

Debt securities
Debt securities i.e. securities other than shares excluding financial derivatives, consist of all financial assets which are bearer instruments, are usually negotiable and traded on secondary markets and do not grant the holder any ownership rights to the institutional unit issuing them. This category covers financial assets which are typically represented by documents intended for circulation and whose nominal value is determined on issue. It includes issues of bills, bonds, notes, debentures and similar instruments normally traded in the financial markets. Instruments included in this category can be characterised as providing the holder with the unconditional right to a fixed or contractually determined variable money income in the form of coupon payments (interest) and/or a stated fixed sum on a specified date or dates or starting from a date fixed at the time of issue. Private placements are covered as far as possible.

Global bonds are included. This corresponds to ESA 2010 category F.3.

Technical definition:

Bonds
Debt securities, in which the issuer owes the holders a debt and is obliged to repay the principal and interest (the coupon) at a later date, termed maturity. Important is that the security is transferrable from one person to another person. The security types "bon de caisse" ("kasbon") in BE and LU are classified as bonds.
HD1410x  kind of bonds owned

Next, (do you/does anyone in your household) own stock shares in any publicly traded companies?

Reference unit: Household

Reference period: Current

Coding:

1 - Yes
Survey definition:

Share
Shares is equivalent to ‘shares and other equity’ in Regulation ECB/2013/33 excluding mutual fund share and excluding other equity [because in the survey “other equity” is classified as businesses]. ‘Shares and other equity’ is defined as ‘holdings of securities which represent property rights in corporations or quasi-corporations. These securities generally entitle the holders to a share in the profits of corporations or quasi-corporations and to a share in their own funds in the event of liquidation. Mutual fund shares are included here’. Shares is also equivalent to the classification ‘Listed shares’ F.511 in ESA 2010.

Technical definition:

Share
A share is one of a finite number of equal portions in the capital of a company, usually evidenced by a piece of paper (also called share certificate) or by an electronic book entry, entitling the owner to a proportion of distributed, non-reinvested profits known as dividends and to a portion of the value of the company in case of liquidation.

Publicly traded shares are shares that are listed on a stock exchange or other form of secondary market, i.e. they can be bought and sold there. Main exchanges in Europe: Euronext, Frankfurt Stock Exchange, London Stock exchange, Helsinki Stock Exchange, Madrid stock Exchange, Milan stock exchange; Main exchanges in USA: NYSE, Nasdaq, Amex. Main exchanges in Asia: Tokyo stock exchange.

6 - Permanently disabled
7 - Compulsory military service or equivalent social service
8 - Fulfilling domestic tasks
9 - Other not working for pay (specify)

a set of 9 variables for items:

a - first choice labour status  
b - secondary choice labour status  
c - secondary choice labour status  
d - secondary choice labour status  
e - secondary choice labour status  
f - secondary choice labour status  
g - secondary choice labour status  
h - secondary choice labour status  
i - secondary choice labour status

**Technical definition:**

Item a - labour status (first choice):  
The variable captures the person’s own perception of their main activity at present.

The concept of ‘current’ implies that any definitive changes in the activity situation are taken into account. For instance, if a person has lost a job or has retired recently, or the activity status has changed otherwise in a definitive manner, then the situation as of the time of the interview should be reported. In this sense, ‘current’ overrides any concept of averaging over any specific reference period.

The self-declared main activity status is, in principle, determined on the basis of the most time spent, but no criteria are specified explicitly. In case respondents hesitate between the answers ‘permanently disabled’ and ‘in retirement’, the code ‘in retirement’ should be privileged for persons having reached the most frequent legal retirement age or the one in their previous occupation.

The code ‘in compulsory military or community service’ might not be relevant any longer in certain countries and will therefore be dropped from national questionnaires in these countries.

The code "on sick/maternity/other leave, planning to return to work" applies to situations when respondent has existing employment contract /self-employment activity from which he/she is only temporarily absent due to sickness, maternity leave period or other transitory reasons and he/she expects to return to that job. For routing of the questions, these persons are considered as being in employment - e.g. they are asked questions related to their employment, from which they are only temporary absent.

Unpaid family workers fall under code 1: ‘Doing regular work for pay / self-employed/family business’

Items b-i:
Secondary labour status indicated by the respondent in addition to the main status under Item a.

PE0200 status in employment

In (your/his/her) current main job, (are you/is [he/she]) working for someone else, self-employed with or without employees or an unpaid worker in a family business?

[IF THE PERSON HAS MORE THAN ONE JOB, PROBE: Please select the main one based on the hours worked.]

Technical definition:

This variable refers to the main job. If multiple jobs are held or were held, the main job should be the one with the greatest number of hours usually worked.

Employee

Employees are defined as persons who work for a public or private employer and who receive compensation in the form of wages, salaries, fees, gratuities, payment by results or payment in kind; non-conscripted members of the armed forces are also included.

- An employee is usually working for an outside employer, but a son or daughter, for example, who is working in a parent’s firm and receives a regular monetary wage is classified here as an employee.
- A woman looking after children in her own home is classified as an employee if she is paid to do this by the local authority (or any other public administration) and if she doesn’t take any decision affecting the enterprise (e.g. schedules or number of children) but as a self-employed if she does it privately.
- Apprentices, or trainees receiving remuneration should be considered as employees.
- Priests (of any kind of religion) are considered employees
Persons who are simultaneously working in their own professional practice and for a public or private employer (e.g. doctors with their own cabinet and working in an hospital) should be classified according to the status where they work a more important number of hours.

Self-employed with employees
Self-employed persons with employees are defined as persons who work in their own business, professional practice or farm for the purpose of earning a profit, and who employ at least one other person. If people working in the business, professional practice or farm, are not paid then he/she should be considered as self-employed without employees.

Self-employed without employees
Self-employed persons without employees are defined as persons who work in their own business, professional practice or farm for the purpose of earning a profit, and who do not employ any other person. Nevertheless he may engage members of his/her own family or apprenticed without payment. In this category one can find farmers working alone or using the assistance of members of family.

In particular:
- A woman who looks after one or more children that are not her own on a private basis and receiving a payment for this service is a self-employed.
- A freelancer should be classified as self-employed, although a person who has been regularly retained by a single employer for some time may also be regarded as an employee.

Family worker
Family workers are persons who help another member of the family to run an agricultural holding or other business, provided they are not considered as employees. Persons working in a family business or on a family farm without pay should be living in the same household as the owner of the business or farm, or in a slightly broader interpretation, in a house located on the same plot of land and with common household interests. Such people frequently receive remuneration in the form of fringe benefits and payments in kind. However, that this applies only when the business is owned or operated by the individual themselves or by a relative. Thus, unpaid voluntary work done for charity should not be included.

The category includes,
- A son or daughter working in the parents' business or on the parents' farm without pay.
- A wife who assists her husband in his business, e.g. a haulage contractor, without receiving any formal pay.

Special case: Members of producers' co-operatives
Members of producers' co-operatives should be considered as self-employed if in the cooperative, each member takes part on an equal footing with other members in determining the organisation of production, sales and/or other work of the
establishment, the investments and the distribution of the proceeds of the establishment amongst their members. In the case co-operative hired workers and these workers have an employment contract that gives them a basic remuneration (which is not directly dependent upon the revenue of the cooperative), these workers are identified as employees of the co-operative. Even if the co-operative has employees (e.g. an accountant) the members of the co-operative should be considered as “self-employed without employees” because the co-operative as an institution (and not any of its members) is the employer.

Other cases:
- Self-employed for tax purposes but who work under the authority/direction of others and receives a pre-defined salary (salary that does not depend on the economic results of the company / institution in which he works) should be coded as employees.
- The owner of a limited liability company, working for that company (or having an active role in running it) and receiving a wage, should be considered as self-employed, and be coded with 2 or 3 depending on the existence of other employees besides the owners.

**PE0300 job description / ISCO**

What is (your/his/her) job title? What (do you/does [he/she]) do on that job? (Tell me more about that.)

**Filtering:** IF (PE0100a in (1,2) OR PE0100b in (1,2) OR PE0100c in (1,2) OR PE0100d in (1,2) OR PE0100e in (1,2) OR PE0100f in (1,2) OR PE0100g in (1,2) OR PE0100h in (1,2) OR PE0100i in (1,2))

**Survey definition:**

The variable on occupation should be coded according to the ISCO-08, International Standard Classification of Occupations, published by the International Labour Force (Geneva, 2007).
Technical definition:

The variable refers to the current main job. If multiple jobs are held or were held, the main job should be the one with the greatest number of hours usually worked. The basis for the classification in the ISCO-08 classification is the nature of the job itself and the level of skill required. A job is defined as the set of tasks and duties to be performed. The information needed for the classification by occupation are the job title associated with the main job and a further description of the tasks and duties. For a few occupations, information on size of the workplace (the local unit of activity) is needed to code ISCO 08. The output of the question is to be coded in two character ISCO-08 classification code. As a recommended best practice, coding at more detailed level could be used in data collection using verbatim text descriptions from respondents, with possible support of CAPI built-in dictionaries and supporting IT tools to facilitate proper coding of responses.

When providing the occupation at major group level (one digit), the digit should be followed by 0, e.g. “Managers” (major group 1) should have code 10.

**PE0400 main employment - NACE**

What does the firm/organisation you work for mainly make or do?

**INTERVIEWER: IF THE COMPANY IS A DIVERSIFIED COMPANY, WE WANT TO KNOW ABOUT THE SUBSIDIARY IN WHICH THE PERSON WORKS.**

**[INTERVIEWER: WRITE DOWN THE DESCRIPTION OF ECONOMIC ACTIVITY OF LOCAL UNIT WHERE RESPONDENT WORKS]**

**Reference unit:** All 16+

**Reference period:** Current

**Coding:**

1 character code (output requirements based on the first letter of the 2008 NACE classification [21 categories]).

**Filtering:** IF (PE0200 = 1)

**Survey definition:**

The economic sector of main employment should be coded according to the NACE, Rev.2, first level, classification provided in annex, which is based upon the Statistical Classification of Economic Activities. The NACE, is the standard classification used at national and EU level for both economic and social statistics. Economic activities
are characterised by the input of goods or services, a production process and the output of products.

Technical definition:

This variable refers to the main job. If multiple jobs are held, the main job should be the one with the greatest number of hours usually worked.

The underlying question asks the respondent to describe the economic activity and the kind of products or services supplied by the firm where (s)he works.

If the company is diversified company, the activity of the subsidiary in which respondent works is to be asked. If the employer operates on more localities, the economic activity of the employer should refer to the local unit where respondent works. The "local unit" to be considered is the geographical location where the job is mainly carried out or, in the case of itinerant occupations, can be said to be based; normally it consists of a single building, part of a building, or, at the largest, a self-contained group of buildings. The "local unit" is therefore the group of employees of the enterprise who are geographically located at the same site.

PE0500 type of contract

Is this a permanent position or a temporary contract?

Reference unit: All 16+

Reference period: Current

Coding:

1 - Permanent position
2 - Temporary contract
3 - Other (no contract or other labour agreement)

Filtering: IF (PE0200 = 1)

Technical definition:

This variable refers to the main job. If multiple jobs are held or were held, the main job should be the one with the greatest number of hours usually worked.

This question is addressed only to employees. Jobs are usually based on written work contracts. However in some countries such contracts exist only for specific cases (for example in the public sector, for apprentices, or for other persons undergoing some formal training within an enterprise). Taking account of these different institutional arrangements the notions "temporary job" and "work contract of
limited duration" (likewise "permanent job" and "work contract of unlimited duration") describe situations which under different institutional frameworks can be regarded as similar. A job may be regarded as temporary if it is understood by both employer and the employee that the termination of the job is determined by objective conditions such as reaching a certain date, completion of an assignment or return of another employee who has been temporarily replaced. In the case of a work contract of limited duration the condition for its termination is generally mentioned in the contract.

To be included in these groups are:
- persons with a seasonal job
- persons engaged by an employment agency or business and hired out to a third party for the carrying out of a "work mission" (unless there is a work contract of unlimited duration with the employment agency or business)
- persons with specific training contracts. If there exists no objective criterion for the termination of a job or work contract these should be regarded as permanent or of unlimited duration.

What is involved is the actual employment being time-limited under an agreement - not that he/she has, for example, considered stopping work in order to travel or attend college. Students with jobs which they only reckon to have for as long as they are studying are thus not in a time-limited job. Respondents who have a contract to do their job, which may be renewed, for example, once a year, should be coded according to whether or not the respondents themselves consider their job to be of an unlimited duration.

Contract for a probationary period when the contract finishes automatically at the end of the probationary period, necessitating a new contract if the person continues to be employed by the same employer, is considered as "temporary job".

**PE0600 hours working a week - main job**

On average over a year, how many hours a week (do you/does [he/she]) usually (work on this job/devote to these self-employment activities)?

[INTERVIEWER: IF THE PERSON IS A SEASONAL WORKER, PROBE: Please tell me how many hours a week (you work/[he/she] works) when (you are/[he/she] is) working and how many weeks you work per year in that job. MAKE A NOTE OF THE NUMBER OF WEEKS.]

**Reference unit:** All 16+

**Reference period:** Current

**Coding:**

Numerical value, 4 digits, 1 decimal place.
Filtering: IF (PE0100a in (1,2) OR PE0100b in (1,2) OR PE0100c in (1,2) OR PE0100d in (1,2) OR PE0100e in (1,2) OR PE0100f in (1,2) OR PE0100g in (1,2) OR PE0100h in (1,2) OR PE0100i in (1,2))

Technical definition:

If multiple jobs are held, the main job should be the one with the greatest number of hours usually worked.

The number of hours corresponds to the number of hours the person normally works in his/her main job. This covers all hours including extra hours, either paid or unpaid, which the person normally works, but excludes the travel time between the home and the place of work as well as the main meal breaks (normally taken at midday). Persons who usually also work at home (within the definitions given below) are asked to include the number of hours they usually work at home.

Apprentices, trainees and other persons in vocational training should exclude the time spent in school or other special training centres.

Some persons, particularly the self-employed and family workers, may not have usual hours, in the sense that their hours vary considerably from week to week or month to month. When the respondent is unable to provide a figure for usual hours for this reason, the average of the hours actually worked per week over the past four weeks is used as a measure of usual hours.

For self-employed people, in particular, normal hours may also include work done at home, such as planning, record-keeping and so on.

Special case: Persons who usually also work at home

This concept applies to many self-employed people, for example in artistic or professional activities, who work wholly or partly at home, often in a part of their living accommodation set aside for the purpose. However, if the place of work comprises a separate unit (for example, a doctor's surgery or tax consultant's practice) which is adjacent to the person's home but contains a separate entrance, then work performed there should not be considered to be done "at home". Similarly, a farmer is not to be regarded as working "at home" when he is occupied in fields or buildings adjacent to his house. In the case of employees, "working at home" should be interpreted strictly in terms of formal working arrangements, where it is mutually understood by the employee and the employer that a certain part of the work is to be done at home. Such an arrangement may be explicitly included in the terms of employment, or may be recognised in other ways (for example, if the employee explicitly notifies the employer of this work by completing a timesheet, or by requesting additional payment or other form of compensation). This arrangement is also recognised if an employee is equipped with a computer in his home in order to perform his work. Other typical examples of "working at home" include travelling salesmen who prepare at home for appointments with clients which are then held at the clients' offices or homes, or persons who do typing or knitting work which on
completion is sent to a central location. "Working at home" does not cover cases where employees carry out tasks at home (because of personal interest or pressure of time), which under their working arrangements might equally have been performed at their place of work.

If the person is a seasonal worker the number of working hours per week to be reported should correspond to the average over the year, i.e. number of hours per week (during active working periods) times the number of working weeks per year divided by 52.

**PE0700 time in main job**

How long (have you/has [he/she]) worked (for that company or organisation / in that self-employment activity)? [enter the length in years]

**Reference unit:** All 16+

**Reference period:** Current

**Technical definition:**

The variable refers to the previous job before the current unemployment spell. If multiple jobs are held or were held, the main job should be the one with the greatest number of hours usually worked.

**Employee**

Employees are defined as persons who work for a public or private employer and who receive compensation in the form of wages, salaries, fees, gratuities, payment by results or payment in kind; non-conscripted members of the armed forces are also included.

- An employee is usually working for an outside employer, but a son or daughter, for example, who is working in a parent’s firm and receives a regular monetary wage is classified here as an employee.
- A woman looking after children in her own home is classified as an employee if she is paid to do this by the local authority (or any other public administration) and if she doesn’t take any decision affecting the enterprise (e.g. schedules or number of children) but as a self-employed if she does it privately.
- Apprentices, or trainees receiving remuneration should be considered as employees.
- Priests (of any kind of religion) are considered employees.
- Persons who are simultaneously working in their own professional practice and for a public or private employer (e.g. doctors with their own cabinet and working in an hospital) should be classified according to the status where they work a more important number of hours.

**Self-employed with employees**
Self-employed persons with employees are defined as persons who work in their own business, professional practice or farm for the purpose of earning a profit, and who employ at least one other person. If people working in the business, professional practice or farm, are not paid then he/she should be considered as self-employed without employees.

Self-employed without employees
Self-employed persons without employees are defined as persons who work in their own business, professional practice or farm for the purpose of earning a profit, and who do not employ any other person. Nevertheless he may engage members of his/her own family or apprenticed without payment. In this category one can find farmers working alone or using the assistance of members of family.

In particular:
- A woman who looks after one or more children that are not her own on a private basis and receiving a payment for this service is a self-employed.
- A freelancer should be classified as self-employed, although a person who has been regularly retained by a single employer for some time may also be regarded as an employee.

Family worker
Family workers are persons who help another member of the family to run an agricultural holding or other business, provided they are not considered as employees. Persons working in a family business or on a family farm without pay should be living in the same household as the owner of the business or farm, or in a slightly broader interpretation, in a house located on the same plot of land and with common household interests. Such people frequently receive remuneration in the form of fringe benefits and payments in kind. However, that this applies only when the business is owned or operated by the individual themselves or by a relative. Thus, unpaid voluntary work done for charity should not be included.

The category includes,
- A son or daughter working in the parents’ business or on the parents’ farm without pay.
- A wife who assists her husband in his business, e.g. a haulage contractor, without receiving any formal pay.

Special case: Members of producers’ co-operatives
Members of producers’ co-operatives should be considered as self-employed if in the cooperative, each member takes part on an equal footing with other members in determining the organisation of production, sales and/or other work of the establishment, the investments and the distribution of the proceeds of the establishment amongst their members. In the case co-operative hired workers and these workers have an employment contract that gives them a basic remuneration (which is not directly dependent upon the revenue of the cooperative), these workers are identified as employees of the co-operative. Even if the co-operative has employees (e.g. an accountant) the members of the co-operative should be
considered as “self-employed without employees” because the co-operative as an institution (and not any of its members) is the employer.

**PE0350 previous job description / ISCO for unemployed**

What was (your/his/her) job title? What (did you/he/she) do on that job? (Tell me more about that.)

*[INTERVIEWER: WRITE DOWN BOTH THE JOB TITLE AND DESCRIPTION OF TASKS RESPONDENT DOES IN HIS/HER JOB]*

**Reference unit:** All 16+

**Reference period:** Current

**Filtering:** IF ((PE0100a in (1,2) OR PE0100b in (1,2) OR PE0100c in (1,2) OR PE0100d in (1,2) OR PE0100e in (1,2) OR PE0100f in (1,2) OR PE0100g in (1,2) OR PE0100h in (1,2) OR PE0100i in (1,2)) OR (PE0900 = 1 AND (PE0100a not in (5,6))

**Technical definition:**

This indicator provides a summary measure of the labour force experience of the individual. The number of years, since starting the first regular job, that the person has spent at work, whether as an employee or self-employed. When a person had a job, but was temporarily absent because of maternity leave, injury or temporary disability, slack work for technical or economic reasons,… the related period is to be taken into account.

'At work' is self-defined. In cases where there is doubt, such as when the person spent a number of years working on a part-time basis, the person’s own perception of whether their main activity was ‘at work’ or something else should be taken.

6 Pensions and insurance policies

PFA0100 number of pension plans and life insurance policies

THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.

Number of pension plans and whole life insurance policies that the Respondent has, that are not providing benefits already

Reference unit: All 16+

Coding:

Numerical value in EUR, 6 digits.

Technical definition:

The OECD Pensions at a Glance 2015 defines three tiers of pensions systems, the first two being mandatory: a first tier, with basic pensions, minimum pensions, and social assistance; a second tier, comprised of earnings-related schemes (DB, DC, notional accounts); the third tier is made of voluntary plans either individual or employer-provided.

PFA020$x type of pension plan $x

THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.

The general type of the plan: public, occupational, voluntary, whole life insurance, other (specify)
Reference unit: All 16+

Loop: Loop of pension plans

Coding:
1 - Public
2 - Occupational
3 - Voluntary pension scheme
4 - Whole life insurance
5 - Other

Filtering: IF (PFA0100 > $x-1)

Technical definition:

Public pension plan
A pension (or retirement income) plan (arrangement or scheme) is a legally binding contract having an explicit retirement objective (or - in order to satisfy tax related conditions or contract provisions - the benefits can not be paid at all or without a significant penalty unless the beneficiary is older than a legally defined retirement age). This contract may be part of a broader employment contract, it may be set forth in the plan rules or documents, or it may be required by law. The elements of the pension plan may be mandated by law or statute or set forth as pre-requisites for special tax treatment, as is the case for many tax qualified savings or retirement programme designed to provide the plan's members and beneficiaries with an income after retirement. In addition to having an explicit retirement objective, pension plans may offer additional benefits, such as disability, sickness, and survivors' benefits.

Occupational pension plans
Access to such plans is linked to an employment relationship between the plan member and the entity that establishes the plan (the plan sponsor). Occupational plans may be established by employers or groups of employers (e.g. industry associations), sometimes in conjunction with labour associations (e.g. a trade union). Generally, the plan sponsor is responsible for making contributions to occupational pension plans, but employees may be also required to contribute. Sponsors may also have administrative or oversight responsibilities for these plans. They are also referred as employer's pension schemes or company pension plans.

Personal (voluntary) pension plans
Access to these plans is not linked to an employment relationship. Individuals independently purchase and select material aspects of the arrangements without intervention of their employers. Some personal plans may have restricted membership (e.g. to the self-employed, to members of a particular craft or trade association, to individuals who do not already belong to an occupational plan, etc).

Participation in these plans is in general voluntary for individuals, i.e. by law individuals are not obliged to participate in these pension plans. The plans are established and administered by a pension fund or financial institution (including insurance companies) acting as a pension provider. Individuals independently purchase and select material aspects of the arrangements.

Life insurance
Holders of life insurance policies, both with profit and without profit, make regular payments to an insurer (there may be just a single payment), in return for which the insurer guarantees to pay the policy holder an agreed minimum sum or an annuity, at a given date or at the death of the policy holder, if this occurs earlier. Term life insurance, where benefits are provided in the case of death but in no other circumstances, is excluded here

Whole life insurance
A contract with both insurance and investment components: (1) It pays off a stated amount upon the death of the insured, and (2) it accumulates a cash value that the policyholder can redeem or borrow against.

[Source: Campbell R. Harvey's Hypertextual Finance Glossaryhttp://www.duke.edu/~charvey/Classes/wpg/bfglosw.htm]

Term life insurance, where benefits are provided in the case of death but in no other circumstances, is excluded here.

PFA030$x still contributing to pension plan $x

THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.

The Respondent is still contributing to the plan: Yes / No

Reference unit: All 16+

Loop: Loop of pension plans

Coding:

1 - Yes
2 - No
**Filtering:** IF (PFA0100 > $x-1)

**Technical definition:**

This variable takes care of several reported cases in waves 1 and 2 where the respondent was not currently contributing (e.g. maternity leave) and the contribution was not equal to the reference percentage rate multiplied by the income. It may happen that it is not possible to determine the contribution of the respondent, and that the respondent might not know himself if he/she is still contributing, in particular for the public pension plan, for example in the case of the unemployed. In this case the variable could be provided as Not relevant (-3).

**PFA040$x number of years contributed to plan $x**

**THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.**

Number of years that the respondent has contributed to the plan

**Reference unit:** All 16+

**Loop:** Loop of pension plans

**Coding:**

Numerical value, 2 digits (in years)

**Filtering:** IF (PFA0100 > $x-1)

**Technical definition:**

Code -4 is to be used when the current value of the pension plan PF080$x can be provided.

**PFA050$x monthly contribution to plan $x**

**THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.**

Monthly contribution to the plan (in EUR), average over the last 12 months

**Reference unit:** All 16+

**Loop:** Loop of pension plans

**Coding:**

Numerical value in EUR, 6 digits.

**Filtering:** IF (PFA030$x = 1)

**Technical definition:**
This variable is important for voluntary plans. For mandatory public and occupational plans it could be deducted from the characteristics of the plan, but for users it would still be much preferable to have the information in the dataset. As in the case of PFA030$x, the information might not be deductible from the situation of the respondent, and the respondent might not know the answer him/herself. In that case, as in PFA030$x, the variable could be provided as Not relevant (code -3). Code -4 is to be used when the current value of the pension plan PF080$x can be provided. This variable is related to the variables PF0200, PF0400, PF0930 in the current questionnaire, but puts the effort of converting the percentages collected in PF0200 and PF0400 into EUR amounts, by applying them to the correct income. Of course the variable can be collected with a different frequency and converted to monthly. In case that the monthly contribution cannot be determined from the situation of the respondent and the characteristics of the plan, the code -3 (undetermined) is to be used.

**PFA060$x pension plan $x carries a balance**

**THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.**

The plan carries a balance: Yes / No

**Reference unit:** All 16+

**Loop:** Loop of pension plans

**Coding:**

1 - Yes
2 - No

**Filtering:** IF (PFA0100  > $x-1)

**Technical definition:**

The question refers to defined contribution (DC) plans. In a defined contribution plan, contributions are paid into an individual account for each member. The contributions are invested and the returns of the investment (which may be positive or negative) are credited to the individual’s account. So the account balance is the current value of the accrued and invested contributions.

**PFA070$x mandatory or voluntary pension plan $x**

**THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.**

The type of the plan: Mandatory or Voluntary

**Reference unit:** All 16+
**Loop**: Loop of pension plans

**Coding:**

1 - Mandatory
2 - Voluntary

**Filtering**: IF (PFA0100 > $x-1)

**PFA080$x** current value of pension plan $x

**THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.**

**Current value of the plan**

**Reference unit**: All 16+

**Loop**: Loop of pension plans

**Coding:**

Numerical value in EUR, 8 digits.

**Filtering**: IF (PFA060$x = 1)

**Technical definition:**

The question refers to the current balance of the account(s) (i.e. the amount available in the pension plan currently) of all plans that the respondent owns. If the value of the pension plan is provided, PFA040$x and PFA050$x can be provided with code -4.

**PFA090$x** national classification code of pension plan $x

**THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.**

**National classification code of the plan**

**Reference unit**: All 16+

**Loop**: Loop of pension plans

**Coding:**

12-character string, starting with the two-letter ISO code of the country, and followed by up to 10 digits or characters, to be defined at the country level

**Filtering**: IF (PFA0100 > $x-1)

**Technical definition:**
The national code PFA090x could be used to indicate e.g. public sector vs. private sector pension plans (if relevant), or that the plan is from abroad. Confidentiality issues would need to be taken into account, of course, but this would provide invaluable information to help the estimation.

The codes are left to the discretion of each country, but should strive to provide the information most relevant to the estimation of pension entitlements and pension plan characteristics.

The plans might indicate e.g. public plan for civil servants, generic plan for self-employed, “guild”-specific plan, mutual insurance, whole life insurance, subsidized, associate scheme, etc. Several attributes could be combined into the string, e.g. characters in positions 3 and 4 to indicate one attribute, 5 to 7 another.

PFA100$x age at which receiving payment from pension plan $x is expected

THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.

Age at which respondent expects to start receiving payment from the plan, (if he/she is not yet receiving any benefits)

Reference unit: All 16+

Loop: Loop of pension plans

Coding:

Numerical value, 3 digits (years).

Filtering: IF (PFA0100 > $x-1)

Technical definition:

Different pension schemes may provide benefits at different times. This affects the behaviour of the household and would be very useful to collect, also due to the variety of plans and situations.

PFA1100 total current value of all other plans that have a balance

THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.

Total current value of all other plans that have a balance and that are not already described (in EUR)

Reference unit: All 16+

Coding:

Numerical value in EUR, 8 digits.
Filtering: IF (PFA0100 > 7)

Technical definition:
This captures the residual of plans that have not been reported; this can be the case for voluntary plans.

PFA1300x expected percentage of final labour income to receive upon retirement, all public and occupational plans taken together

THERE IS NO CORRESPONDING HFCS BLUEPRINT QUESTIONNAIRE.

Percentage of his final labour income that the respondent expects to receive upon retirement, all public and occupational pension plans taken together

Reference unit: All 16+

Coding:
Numerical value in percentages, 3 digits, 2 decimal numbers

a set of two variables for items
a - lower range of the expected percentage
b - upper range of the expected percentage

Filtering: IF ((PFA0100 > 0) AND (PFA1001 <> -8) AND (PFA1002 <> -8) AND (PFA1003 <> -8) AND (PFA1004 <> -8) AND (PFA1005 <> -8) AND (PFA1006 <> -8) AND (PFA1007 <> -8))

Technical definition:
The percentage should refer to the labour income of the respondent before retirement.

The values in the two variables PFA1300a and PFA1300b can be identical, if the respondent is able to provide a point estimate for the expected replacement rate.

PG0100 received employee income

Did you receive any sort of employee income during (last 12 months / last calendar year)?

Reference unit: All 16+

Reference period: Last 12 months/last calendar year

Coding:

1 - Yes
2 - No

Survey definition:

Employee income in cash or near cash
Employee income is the sum of remuneration received from an employer in cash (monetary). It includes any income from regular wages or salaries, including remuneration for time not worked (such as annual holidays), any overtime, thirteenth month payment, fees paid to directors of incorporated enterprises, sums paid for fostering children regarded as payment for labour, tips and gratuities, bonuses and profit sharing benefits (including stock options), allowances paid to cover expenses such as living in special quarters or in a special when relocation is part of the conditions of service of the job. Any reimbursements for work expenses from an employer should be deducted if paid with wages and salaries (e.g. business travel and accommodation costs)

Technical definition:

Gross cash employee income
It refers to the monetary component of the compensation of employees in cash payable by an employer to an employee. It includes the value of any social contributions and income taxes payable by an employee or by the employer on behalf of the employee to social insurance schemes or tax authorities.

Gross employee cash or near cash income includes the followings items:
- Wages and salaries paid in cash for time worked or work done in main and any secondary or casual job(s);
- Remuneration for time not worked (e.g. holiday payments);
- Enhanced rates of pay for overtime;
- Fees paid to directors of incorporated enterprises
- Piece rate payments
- Payments for fostering children
- Commissions, tips and gratuities
- Supplementary payments (e.g. thirteenth month payment)
- Profit sharing and bonuses paid in cash
- Additional payments based on productivity
- Allowances paid for working in remote locations (regarded as part of the conditions of the job)
- Allowances for transport to or from work
- Cash housing allowances paid by employer
- Additional payments made by employers to their employees or former employees and other eligible persons to supplement the sick, disability, maternity leave or survivor's pay entitlement from social insurance schemes, where such payments cannot be separately and clearly identified as social benefits.
- Payments made by employers to an employee in lieu of wages and salaries through a social insurance scheme when unable to work through sickness, disability or maternity leave where such payment cannot be separately and clearly identified as social benefits.
- Payments for fostering children: It refers to the amount of money that the government or NPISHs give to families for taking care of children. These children live in a family instead of living in an institution. The family is not the real family. The children do not have the legal status of 'children of the family'.

All such income received in the reference period should be included, even if in arrears.

It excludes:
- Reimbursements made by an employer for work-related expenses (e.g. business travel)
- Severance and termination pay to compensate employees for employment ending before the employee has reached the normal retirement age for that job and redundancy payments (they are included under HG0600)
- Allowances for purely work-related expenses such as those for travel and subsistence or for protective clothes
- Lump sum payments at the normal retirement date (they are included under HG0600)
- Union strike pay.
- Employers' social insurance contributions

**PG0110 gross cash employee income**

What was the total gross amount over (the last 12 months / last calendar year)? Please include income from regular wages or salaries, as well as any overtime pay, tips, bonuses, profit sharing benefits (unless part of the pension arrangements).

PG0200 received self-employment income

Did you earn any income from working as self-employed during (the last 12 months / last calendar year)?

[INTERVIEWER: INCOME FROM A BUSINESS OTHER THAN SELF-EMPLOYMENT INCOME IS COVERED IN HG0500/HG0510. ANY INCOME OF THE COMPANY USED FOR PERSONAL CONSUMPTION IS TO BE CONSIDERED AS INCOME FROM SELF-EMPLOYMENT AND INCLUDED HERE.]

Reference unit: All 16+
Reference period: Last 12 months/last calendar year
Coding:
1 - Yes
2 - No

Survey definition:
Income from self-employment
Income from self-employment (including farming) is the net operating profit or loss that a self-employed person makes out of his or her unincorporated enterprise. It includes an element which rewards the labour expended and also an element covering the return to the capital employed (mixed income). The business of a self-employed person may make a loss, which is regarded as negative income. Income from self-employment excludes rental and royalty income, dividends earned by owners of incorporated enterprises, as well as profits from capital investment in unincorporated businesses.
Net operating profit or loss is gross revenue minus operating costs, wages and salaries paid to employees, including social contributions, taxes paid on production and imports, interest paid on business loans, and depreciation of fixed assets. Net operating profit includes in kind goods and services taken out of the enterprise by the owners or partners. Gross revenue includes subsidies received. In kind or imputed income due to the consumption of goods and services that self-employed produce themselves or obtain through bartering are not included.

**Technical definition:**

**Self-employment income**

Self-employment income is defined as the income received, during the income reference period, by individuals, for themselves or in respect of their family members, as a result of their current or former involvement in self-employment jobs. Self-employment jobs are those jobs where the remuneration is directly dependent upon the profits (or the potential for profits) derived from the goods and services produced (where own consumption is considered to be part of profits). The self-employed make the operational decisions affecting the enterprise, or delegate such decisions while retaining responsibility for the welfare of the enterprise. (In this context “enterprise” includes one-person operations). The remuneration of hobbies shall be regarded as self-employment.

If the income collected or compiled corresponds to a time period earlier than the reference period, basic adjustments shall be applied to update the data to the income reference period.

It includes:
- Net operating profit or loss accruing to working owners of, or partners in, an unincorporated enterprise, less interest on business loans;
- Royalties earned on writing, inventions, and so on not included in the profit/loss of unincorporated enterprises;
- Rentals from business buildings, vehicles, equipment, etc. not included in the profit/loss of unincorporated enterprises, after deduction of related costs such as interest on associated loans, repairs and maintenance and insurance charges.

It excludes:
- Directors fees earned by owners of incorporated enterprises (which are included under ‘Gross cash employee income under PG0100);
- Dividends paid by incorporated enterprises (which are included under ‘Income from financial investments HG0400)
- Profits from capital invested in an unincorporated enterprise in which the person does not work (‘sleeping partners’) (it is included under ‘Income from private business or partnership HG0500);
Rentals from dwellings, land and receipts from boarders or lodgers not included in the profit/loss of unincorporated enterprises (which are included under ‘Rental income from real estate property’ HG0300).

In practice if the self-employed person or business prepares annual accounts for tax purposes, the gross income benefits/losses shall be calculated as net operating benefits/losses shown on this tax account for the most recent 12 month period, before deduction of taxes on income and compulsory social insurance contributions.

In the absence of annual accounts, either for tax purposes or as a business account, the alternative approach to measure self-employment income shall be to collect the amount of money (and goods) drawn out of the business for personal use (for consumption or saving, including the market value of goods produced or purchased by the business but taken for personal use).

**PG0210** gross self-employment income (profit/losses of unincorporated enterprises)

**Technical definition:**
Income received during the income reference period from public pension schemes

It includes:
- Old age pensions: periodic payments intended to maintain the income of the beneficiary after retirement from gainful employment at the standard age or support the income of old persons
- Anticipated old age pensions: periodic payments intended to maintain the income of beneficiaries who retire before the standard age as defined in the relevant scheme or in the scheme of reference. This may occur with or without a reduction of the normal pension.
- Partial retirement pensions: periodic payment of a portion of the full retirement pension to older workers who continue to work but reduce their working hours or whose income from a professional activity is below a defined ceiling.
- Survivor’s pension: periodic payments to people whose entitlement derives from their relationship with a deceased person protected by a scheme (widows, widowers, orphans and similar).
- Disability Pension: periodic payment intended to maintain or support the income of someone below standard retirement age who suffers from a disability which impairs his or her ability to work or earn beyond a minimum level laid down by legislation.

It excludes:
- Pensions received from occupational and private pension plans
- Unemployment income

All such income received in the reference period should be included, even if in arrears.

Incomes from public pension systems from abroad are also included.

Did you receive any income from unemployment benefits in (the last 12 months / the last calendar year)?

Reference unit: All 16+

Reference period: Last 12 months/last calendar year

Coding:

1 - Yes
2 - No

Survey definition:

Unemployment benefits
Any regular transfers from social security or other governmental agencies in the form of unemployment benefits.

Technical definition:

Unemployment benefits refer to benefits that replace in whole or in part income lost by a worker due to the loss of gainful employment; provide a subsistence (or better) income to persons entering or re-entering the labour market; compensate for the loss of earnings due to partial unemployment; replace in whole or in part income lost by an older worker who retires from gainful employment before the legal retirement age because of job reductions for economic reasons; contribute to the cost of training or re-training people looking for employment; or help unemployed persons meet the cost of travelling or relocating to obtain employment;

It includes:

- Full unemployment benefits: benefits compensating for loss of earnings where a person is capable of working and available for work but is unable to find suitable employment, including persons who had not previously been employed.
- Partial unemployment benefits: benefits compensating for the loss of wages or salary due to formal short-time working arrangements, and/or intermittent work schedules, irrespective of their cause (business recession or slow-down, breakdown of equipment, climatic conditions, accidents and so on), and where the employer/employee relationship continues.
- Early retirement for labour market reasons: periodic payments to older workers who retire before reaching standard retirement age due to unemployment or to job reductions caused by economic measures such as the restructuring of an industrial sector or of a business enterprise. These payments normally cease when the beneficiary becomes entitled to an old age pension.

- Vocational training allowance: payments by social security funds or public agencies to targeted groups of persons in the labour force who take part in training schemes intended to develop their potential for employment.

- Mobility and resettlement: payments by social security funds or public agencies to unemployed persons to encourage them to move to another locality or change their occupation in order to seek or to obtain work.

- Other cash benefits: other unemployment financial assistance, particularly payments to the long-term unemployed

It excludes:

- Family allowances paid for dependent children, even if the eligibility for them is dependent on the respondent being unemployed (included under received income from public transfers HG0100).

- Severance and termination payments (included under HG0600)

- Redundancy compensation (included under HG0600)

**PG0510** gross income from unemployment benefits

What was the total gross amount over (the last 12 months / the last calendar year)?

**INTERVIEWER: MAKE A NOTE IF INFORMATION IS PROVIDED NET**

**HG0100** received income from public transfers

Did (you/your household) receive any government scholarships or income from public assistance or other welfare payments in (the last 12 months / the last calendar year)? Please do not include unemployment benefits, public pensions or special one-time payments.

[Interviewing: Listing of the main social benefits of the national social security/assistance system is recommended]
Reference unit: Household

Reference period: Last 12 months/last calendar year

Coding:
1 - Yes
2 - No

Survey definition:

This variable covers: Regular public transfers

Any regular transfers to individuals, families or households from social security or other governmental agencies not reported so far such as illness subsidies, maternity leave, family protection, child benefits, student grants and reductions in interest on student loans, scholarships and other educational assistance, tax credits etc. It also includes:
- Age, widows, sickness, disability, etc. regular pensions and allowances that are not employment related or dependent on direct contributions to an insurance scheme by the beneficiary.
- Maternity, family and child benefits
- Scholarships and other educational assistance from government. In case of doubt on the provenance of scholarships, they should be included in this variable.

Do not consider here all lump sum and one-off subsidies or payments.

Technical definition:

Social benefits

Social benefits are defined as current transfers received during the income reference period by households intended to relieve them from the financial burden of a number of risk or needs, made through collectively organised schemes, or outside such schemes by government units and NPISHs. It includes the value of any social contributions and income tax payable on the benefits by the beneficiary to social insurance schemes or to tax authorities. In order to be included as a social benefit, the transfer must meet one of two criteria:
- Coverage is compulsory (under law, regulation or a collective bargaining agreement) for the group in question;
- It is based on the principle of social solidarity (i.e. if it is an insurance-based pension, the premium and entitlements are not proportional to the individual exposure to risk of the people protected).

The social benefits included are restricted to cash benefits. The benefits in-kind are not included.
The social benefits collected at a household level under HG0100 include the following types of benefits:
- Family/children related allowances
- Housing allowances
- Education allowances refer to grants, scholarships and other education help received by students.
- Minimum subsistence of minimum income schemes types of social benefits, periodic payments to people with insufficient resources
- Other types of social benefits

It excludes:
- Unemployment benefits (covered under PG0500)
- Income from public pension schemes (covered under PG0300)

HG0110 gross income from regular social transfers

Did (you/your household) receive any regular payments of alimony, child support, subsidies, or private scholarships from persons outside the household or organizations in (the last 12 months / the last calendar year)? Please do not include gifts or one-time payments.

[INTERVIEWING STRATEGY: IT IS SUGGESTED TO ADD COUNTRY-SPECIFIC EXAMPLES]

Reference unit: Household

Reference period: Last 12 months/last calendar year

Coding:
Survey definition:

Regular private transfers
Any regular transfers from private entities and/or other households. Includes, compulsory or voluntary alimony and child support received on a regular basis, regular payments from households in other countries, any other regular income support payments from people living in other households such as received by children studying away from home or elderly relatives living in another household. Also includes, regular support received from non-profit institutions including charities, such as regular assistance provided by non-profit institutions serving households, strike pay from unions received on a regular basis, scholarships from charitable trusts.

Inter-household transfers are:
- Given without an expectation of repayment, similar to any current transfer.
- Given with the aim of supporting current consumption; this is related to the classification of a specific economic flow between households as income received (when money, goods or services are used immediately or in the short-term) or as an increment of wealth (when saved or comprising a capital item such as a consumer durable).
- Often made regularly, i.e. anticipated or relied upon by the recipient household.

[Source: OECD Framework for statistics on the distribution of household income, consumption and wealth, 2013]

Technical definition:

Regular inter-household cash transfers received refer to regular monetary amounts received, during the income reference period, from other households or persons. They should refer to regular payment received, even if once a year, available to finance (regular) consumption expenditure.

Inter-household transfers should be:
- Regular, i.e. transfer receipts must be to some extent be anticipated or relied on;
- Current, i.e. available for consumption during the income reference period.

The definition of regular does not refer to precise timing and do not require strong periodicity.

It includes:
- Compulsory alimony and child support;
- Voluntary alimony and child support received on a regular basis;
- Regular cash support from persons other than household members;
- Regular cash support from households in other countries.
- Scholarships from charitable trusts.

It excludes:
- Inheritances and other capital transfers, i.e. transfers received from other households which the household does not consider as being wholly available for consumption within the income reference period (covered as inheritances under HH0100)
- Gifts and other large, one-time and unexpected cash flows, like “lump sums” to buy a car, a house, … or to be saved for long term consumption (more than one year ahead) (covered as gifts under HH0100).

**HG0210 income from regular private transfers**

*What was the total gross amount over (the last 12 months / the last calendar year)?*

**INTERVIEWER: MAKE A NOTE IF INFORMATION IS PROVIDED NET**

**Reference unit:** Household

**Reference period:** Last 12 months/last calendar year

**Coding:**

1 - Yes
2 - No

**Survey definition:**

This variable covers rental income:
Rents on land, inland waters and rivers and sub-soil assets
Rents on land consist of the amounts paid to a landowner by a tenant for the use of the land. Rents on subsoil assets consist of the payments made to the owners of the subsoil assets by institutional units permitting them to extract the subsoil deposits over a specified period.

Rental income other than for land
Rental on fixed assets is the amount payable by the user of a fixed asset to its owner, under an operating lease or similar contract, for the right to use that asset in production for a specified period of time.

**Technical definition:**

Income from rental of a property or land refers to the income received, during the income reference period, from renting a property (for example renting a dwelling - not included in the profit/loss of unincorporated enterprises-, receipts from boarders or
lodgers, or rent from land) after deducting costs such as mortgage interest repayments, minor repairs, maintenance, insurance and other charges.

If renting of the property is part of an unincorporated business (e.g. renting summer apartments as a self-employment business), the income should be part of the self-employment income under PG0200.

HG0310  gross rental income from real estate property

What was the total gross amount over (the last 12 months / the last calendar year)?

INTERVIEWER: MAKE A NOTE IF INFORMATION IS PROVIDED NET

Reference unit: Household

Filtering: IF (HG0300 = 1)

HG0400  received income from financial investments

Did (you/your household) receive any income in the form of interest or dividends on sight deposits, time and saving deposits, certificates of deposit, managed accounts, bonds, publicly traded stock shares or mutual funds in (the last 12 months / the last calendar year)?

Reference unit: Household

Reference period: Last 12 months/last calendar year

Coding:

1 - Yes
2 - No

Survey definition:

Interest
Interest is the amount that the debtor becomes liable to pay to the creditor over a given period of time without reducing the amount of principal outstanding, under the terms of the financial instrument agreed between them.

Dividends
Dividends are a form of property income to which shareholders, that is the owners of a corporation, become entitled as a result of placing funds at the disposal of the corporation. (Source: System of National Accounts, United Nations, 1993). Out of these, only dividends received from publicly traded companies are included as financial investments income under PG0400.

**Technical definition:**

Interest and dividends received from publicly traded companies (not including the profit/loss of an unincorporated enterprises and investments in companies that are not publicly traded). Refer to the amount of interest from assets such as bank accounts, certificates of deposit, bonds, publicly traded shares etc. received during the income reference period less expenses incurred.

The question refers only to income received during the reference period. For instance, interest from saving accounts that only became available at the maturity of the deposit should not be included if the account did not reach the maturity during the reference period.

**HG0410 gross income from financial investments**

*What was the total gross amount over (the last 12 months / the last calendar year)?*

**HG0600** received income from other income sources

Did (you/your household) receive any other regular or irregular income from sources other than those I have already recorded, such as capital gains or losses from the sale of assets, prize winnings, insurance settlements, severance payments, lump sum payments upon retirement, premature withdrawal from private insurance schemes or any other sources in (the last 12 months / the last calendar year)?

**[INTERVIEWER: TAX REFUNDS SHOULD NOT BE CONSIDERED HERE, NOR ANYWHERE ELSE]**
**Reference unit:** Household

**Reference period:** Last 12 months/last calendar year

**Coding:**

1 - Yes
2 - No

**Technical definition:**

Other income sources

Any other income that is not included in the sources already recorded. Residual item.

Sources of income to be included:

- Capital gains or losses from the sale of assets
- Severance and termination payments (benefits compensating employees for employment ending before the employee has reached the normal retirement age for that job); redundancy compensation (capital sums paid to employees who have been dismissed through no fault of their own by an enterprise that is ceasing or cutting down its activities)
- Lump sum payments upon retirement
- Premature withdrawal from private pension schemes
- Prize winnings
- Insurance settlements

**NOTE:** If the text specification of the kind of income provided by the respondent allows subsequent re-classification into one of the standardised income variables, the preferred solution is to add this income under its corresponding category. If such ex-post classification is not possible or the income does not belong to any of these income components, the residual income variable HG0610 is to be used, with the text description of the kind of income provided in HG0620.

9  Consumption

HI0100  amount spent on food at home

About how much does (you/your household) spend on average by month on food and beverages at home?

IMPLEMENTATION SUGGESTION: SOME FLEXIBILITY MIGHT BE GIVEN TO THE RESPONDENT, COLLECTING BOTH THE AMOUNT AND THE SPONTANEOUS PERIOD IT REFERS TO. FOR EXAMPLE SOME MIGHT KNOW BETTER THE EXPENSES BY WEEK OR BY 15 DAY PERIOD. THE AVERAGE SHOULD BE UNDERSTOOD AS THE EXPENSES OVER THE LAST 12 MONTHS/CALENDAR YEAR.

Reference unit: Household

Reference period: Typical month

Coding:

Numerical value in EUR, 6 digits.

Survey definition:

Food consumption at home
COICOP-HBS classification of goods 01 (food and non-alcoholic beverages) and 02.1 (alcoholic beverages)

**Technical definition:**

Food consumption at home

Amount spent on purchases of food and both alcoholic and non-alcoholic beverages: bread and cereals, meat, fish, milk, cheese and eggs, fruit and vegetables, sugar, jam, honey chocolate and confectionery, coffee, tea and cocoa, mineral water, soft drinks and fruit and vegetable juices, wine, beer, liquor, etc.

**HI0200 amount spent on food outside home**

About how much does (you/your household) spend on average by month on food and beverages outside the home? I mean expenses at restaurants, lunches, canteens, coffee shops and the like. Please, include only the amounts (you/your household) pay out i.e. net of any employer subsidy/discount/promotion etc.

IMPLEMENTATION SUGGESTION: SOME FLEXIBILITY MIGHT BE GIVEN TO THE RESPONDENT, COLLECTING BOTH THE AMOUNT AND THE SPONTANEOUS PERIOD IT REFERS TO. FOR EXAMPLE SOME MIGHT KNOW BETTER THE EXPENSES BY WEEK OR BY 15 DAY PERIOD.

**Reference unit:** Household

**Reference period:** Typical month

**Coding:**

Numerical value in EUR, 6 digits.

**Technical definition:**

Food consumption outside home

Expenses at restaurants and canteens. In case of subsidies meals provided as part of employment package, only the amount actually paid by the household should be included.

**HI0210 amount spent on utilities**

About how much does your household spend on average by month on utilities, such as electricity, water, gas, telephone, internet and television? SHOW CARD WITH ITEMS.
Reference unit: Household

Reference period: Typical month

Coding:

Numerical value in EUR, 6 digits.

Survey definition:

Expenditure in utilities

COICOP-HBS classification of goods: 04.4. (Water supply and miscellaneous services relating to the dwelling); 04.5 Electricity, gas and other fuels (04.5.1 Electricity; 04.5.2 Gas; 04.5.3 Liquid fuels; 04.5.4 Solid fuels; 04.5.5 Heat energy); 08.3.0 Telephone and telefax services and (part of) 09.4.2 Cultural services “television and radio broadcasting. In addition, internet service fees should be included. The word “utility” in English also includes public services such as transportation, which we recommend excluding here.

[Source: COICOP-HBS classification of goods]

Technical definition:

Expenditure in utilities

Payments related to provision of water supply, electricity, gas and other fuels, telephone expenses (fixed and mobile) to all the dwellings the household owns or, if none is owned, the dwelling rented, and internet, cable and satellite subscriptions. All concepts include both contract setup costs incurred during the period and regular expenses in the item. Taxes or tax-like payments related to broadcasting that are compulsory for every household in a country should be excluded. There is an issue about communal costs in dwellings that share quasi public services, like a swimming pool or common lightning (that partly include water or electricity). Transportation costs should be excluded.

HI0230 annual expenses on trips and holidays

Over the last 12 months, about how much did (you/your household) spend on holiday trips or vacations? SHOW CARD WITH ITEMS INCLUDED. Please include transportation, accommodations, meals, package tours, entertainment and any other related expenses.

Reference unit: Household

Coding:

Numerical value in EUR, 6 digits.

Survey definition:

Mainly refers to items 072 and 073 of the COICOP classification
HI0220  
**amount spent on consumer goods and services**

So overall, about how much does your household spend on average by month on all consumer goods and services? Consider all household expenses including food, utilities, etc. but excluding consumer durables (e.g. cars, household appliances, etc.), rent, loan repayments, insurance policies, renovation, etc.

**Reference unit:** Household

**Reference period:** Typical month

**Coding:**

Numerical value in EUR, 6 digits.

**Survey definition:**

Childcare and health care expenses should be included in this question.

HI0300  
**makes alimony and charity payments**

Did (you/your household) make payments on a regular basis to persons or institutions outside your household (such as alimony, child support, charities, etc.) in the last 12 months? Do not consider here one-off payments.

**Reference unit:** Household

**Reference period:** Current

**Coding:**

1 - Yes  
2 - No

**Technical definition:**

Regular inter-household transfers paid refer to regular monetary amount paid, during the income reference period, to other households. They should refer to regular payments, even once a year, out of income.

These inter-household transfers should be:

- Regular, i.e. transfer payments must be to some extent be anticipated or relied on;
- Current, i.e. out of the income from the income reference period.

The definition of regular does not refer to precise timing and do not require strong periodicity.

Regular inter-household transfers paid include:
- Compulsory alimony and child support
- Voluntary alimony and child support paid on a regular basis
- Regular cash support to persons other than household members
- Regular cash support to households in other countries.
- Regular donations given to charities/institutions (e.g. the church).

Regular inter-household transfers paid exclude:
- Capital transfers and money drawn from saving.
- Repayments of loans/transfers received.

NOTE: The applied definition should mirror the one applied for the inter-household transfers received under HG0200.

**HI0310** amount given as alimony etc per month

About how much money do (you/your household) give per month?

**Reference unit:** Household  
**Reference period:** Current  
**Coding:**

1 - yes
0 - no

DA1400  Real estate (incl. property used for business activities)

DA1400 = DA1110 + DA1120

Coding:
Numerical value

Survey definition:
Value of real estate wealth, the sum of the value of HMR and value of other properties.

DA1400i  Has real estate wealth

Coding:
1 - yes
0 - no

DA2100  Total financial assets 1 (excl. public and occupational pension plans)

DA2100 = DA2101 + DA2102 + DA2103 + DA2104 + DA2105 + DA2106 + DA2107 + DA2108 + DA2109

Coding:
Numerical value

Survey definition:
It comprises: non-self employment private businesses, sight accounts, saving accounts, mutual funds, bonds, shares, managed accounts, 'other' assets, private lending, voluntary pension plans or whole life insurance contracts.

**DA2100i** Has financial assets

**Coding:**

1 - yes  
0 - no

**DA2100SH** Financial assets as share of gross wealth

\[
DA2100SH = \frac{DA2100}{DA3001}, \text{ zero if no financial assets in } DA2100, \text{ missing if zero total assets } DA3001
\]

**Coding:**

Numerical value

**DA2101** Deposits

\[
DA2101 = HD1110 + HD1210
\]

**Coding:**

Numerical value

**DA21011** Deposits: sight accounts

\[
DA21011 = HD1110
\]

**Coding:**

Numerical value

**DA21011i** Has sight accounts

**Coding:**

1 - yes  
0 - no
DA21012  Deposits: saving accounts

DA21012 = HD1210

Coding:
Numerical value

DA21012i  Has saving accounts

Coding:
1 - yes
0 - no

DA2101i  Has deposits

Coding:
1 - yes
0 - no

DA2102  Mutual funds, total

DA2101 = HD1330

Coding:
Numerical value

Survey definition:
Total value of mutual funds

DA2102i  Has mutual funds

Coding:
1 - yes
0 - no

DA2103  Bonds

DA2103 = HD1420

Coding:
DA2103i Has bonds

Coding:
1 - yes
0 - no

DA2104 Value of non self-employment private business

DA2104 = HD1010

Coding:
Numerical value

DA2104i Has non-SE private business wealth

Coding:
1 - yes
0 - no

DA2105 Shares, publicly traded

DA2105 = HD1510

Coding:
Numerical value

DA2105i Has shares (publicly traded)

Coding:
1 - yes
0 - no

DA2106 Managed accounts

DA2106 = HD1620

Coding:
Numerical value

**DA2106i  Has managed accounts**

**Coding:**

1 - yes
0 - no

**DA2107  Money owed to households**

**DA2107 = HD1710**

**Coding:**

Numerical value

**DA2107i  Has money owed to household**

**Coding:**

1 - yes
0 - no

**DA2108  Other assets**

**DA2108 = HD1920**

**Coding:**

Numerical value

**DA2108i  Has other assets**

**Coding:**

1 - yes
0 - no

**DA2109  Voluntary pension/whole life insurance**

**DA2109 = sum of (PFA080x if PFA020x = 3 or 4) over household members**

**Coding:**
Numerical value

Survey definition:
Total value of voluntary pensions and whole life insurance

DA2109i Has voluntary pensions/whole life insurance

Coding:
1 - yes
0 - no

DA2199 Other types of financial assets

DA2199 = DA2104+DA2106+DA2108

Coding:
Numerical value

Survey definition:
Joint item containing DA2104 private non-self-employment businesses, DA2106 assets in managed accounts and DA2108 other types of financial assets

DA2199i Has other types of financial assets

Coding:
1 - yes
0 - no

DA3001 Total assets 1, excl. public and occupational pension plans

DA3001 = DA1000 + DA2100

Coding:
Numerical value
DATOP10 Country top 10% gross wealth

**Coding:**
Numerical value

**Survey definition:**
Percentiles variable based on DA3001, by country

Lower bound percentile intervals values: 0 - 0-5%, 5 - 5-10%, 10 -10-20%, 20 - 20-30%, 30 - 30-40%, 40 - 40-50%, 50 - 50-60%, 60 - 60-70%, 70 - 70-80%, 80 - 80-90%, 90 - 90-95%, 95 - 95-99%, 99 - top 1%.

DH0001 Number of household members

**Coding:**
Numerical value

**Survey definition:**
Number of household members, all household members included

DH0002 Consumption units (OECD modified)

\[1 + \text{(Household members aged 14 or more} - 1) \times 0.5 + \text{(Household members aged 13 or less} \times 0.3)\]

**Coding:**
Numerical value

**Survey definition:**
Number of consumption units in the household, according to the OECD modified scale:

1 unit for the first household member, 0.5 for each additional household member aged 14 and more, and 0.3 per additional household member aged 13 or less.

DH0003 Number of economically active members in household

Number of persons for which PE0100a or PE0100b (Labour status, main and secondary) = 1 (‘doing regular work for pay/ self-employed/ family business’) or 2 (‘sick, maternity/other leave, planning to return to work’) or 3 (‘unemployed’) or 7 (‘compulsory military service or equivalent social service’).

**Coding:**
Technically, the economically active population comprises all persons of either sex who furnish the supply of labour for the production of goods and services during a specified time-reference period. National practices vary between countries as regards the treatment of groups such as armed forces, members of religious orders, persons seeking their first job, seasonal workers or persons engaged in part-time economic activities.

[Source: ILO, http://laborsta.ilo.org/applv8/data/c1e.html]

**DH0004 Number of household members in employment**

Number of persons for which PE0100a or PE0100b (Labour status) = 1 (‘doing regular work for pay/ self-employed/ family business’) or 2 (‘sick, maternity/other leave, planning to return to work’).

**Coding:**

Numerical value

**DH0006 Number of household members 16+**

Number of persons for which RA0300 >=16

**Coding:**

Numerical value

**Survey definition:**

Number of household members aged 16 or more

**DH14P Number of household members aged 14+**

**Coding:**

Numerical value

**DHaged65plus Household members aged 65 or more**

**Coding:**

Numerical value
DHAGEH1  Age of reference person, Canberra definition

DHAGEH1 = RA0300 when RA0010=DHIDH1

Coding:
Numerical value

Survey definition:
DHAGEH1 - UN/Canberra definition applied to HFCS (used for HFCS statistical output)

In addition, twin _B variables are provided with age of the RP in brackets:

DHAGEH1B Age of reference person in brackets, Canberra definition

DHAGEH1B = RA0300_B when RA0010=DHIDH1, with values recoded to the age brackets

Coding:
Numerical value

Survey definition:
DHAGEH1 - UN/Canberra definition applied to HFCS (used for HFCS statistical output)

Age of the RP in brackets, where the bracket value is the lower bound of each age group:

DHAQ01 Quintile, gross wealth, among households

Coding:
Numerical value

Survey definition:
Quintiles based on DA3001, per country.
**Dhchildrendependent  Number of dependent children**

**Coding:**
Numerical value

**Survey definition:**
Dependent children defined as all persons aged 0-15 and person aged 16-24 not at work and living with a parent.

**DHEDUH1  Education of reference person, Canberra definition**

\[ \text{DHEDUH} = \text{PA0200 when RA0010=DHIDH1} \]

**Coding:**
Categories based on ISCED-2011 classification:

1 - Early childhood education or no education (0) or Primary education (1)
2 - Lower secondary education
3 - Upper secondary education (3) or Post-secondary non-tertiary education (4)
5 - Short-cycle tertiary education (5) or Bachelor or equivalent (6) or Master or equivalent (7) or Doctoral or equivalent (8)

**Survey definition:**
Highest completed education of the reference person.

DHEDUH1 - UN/Canberra definition applied to HFCS (used for HFCS statistical output)

**DHEMPH1  Main labour status of reference person, Canberra definition**

\[ \text{DHEMPH1} = \begin{cases} 1 & \text{if PE0200=1} \\ 2 & \text{if PE0200 in (2,3,4)} \\ 3 & \text{if PE0100a =3} \\ 4 & \text{if PE0100a =5} \\ -1 & \text{if PE0100a or PE0200 in (-1,-2) } \\ -1 & \text{if PE0100a in (4,6,7,8,9)} \\ \text{missing.} & \end{cases} \]

**Coding:**
1 - Employee
2 - Self-employed
3 - Unemployed
4 - Retired
Survey definition:
Main labour status of the reference person.

DHEMPH1 - UN/Canberra definition applied to HFCS (used for HFCS statistical output)

**DHGENDERH1**  Gender of reference person, Canberra definition

\[ \text{DHGENDERH1} = \text{RA0200 if RA0010= DHIDH1} \]

Coding:
1 - male
2 - female

Survey definition:
Gender of the Reference person

DHGENDERH1 - UN/Canberra definition applied to HFCS (used for HFCS statistical output)

**DHHST**  Housing status

if HB0300 in (1,2) and HB1000 = 1 then DHHST=2
if HB0300 in (1,2) and HB1000 ne 1 then DHHST=1
if HB0300 > 2 then DHHST=3

Coding:
1 - Owner/partial owner with mortgage
2 - Owner/partial owner without mortgage
3 - Tenant/Free use

Survey definition:
Housing status relative to the HMR, distinguishing households with or without mortgages using the HMR as collateral

**DHHTYPE**  Household type

Classification of household

Coding:
51 - One adult, younger than 64 years
52 - One adult, older than 65 years
6 - Two adults younger than 65 years
7 - Two adults, at least one aged 65 years and over
8 - Three or more adults
9 - Single parent with dependent children
10 - Two adults with one dependent child
11 - Two adults with two dependent children
12 - Two adults with three or more dependent children
13 - Three or more adults with dependent children

Survey definition:
Household composition

DHIDH1 Personal identification number (RA0010) of reference person, Canberra definition

Coding:
Numerical value

Survey definition:
UN/Canberra definition applied to HFCS, used for HFCS statistical output (UNECE 2011). The household reference person is uniquely determined by applying sequentially the following steps: household type (one of the partners in a de facto or registered marriage with, then without dependent children, lone parent with children, the person with the highest income, and finally the eldest person).

DHIQ01 Quintile, equivalent total gross income (DI2000), among households

Coding:
Numerical value

Survey definition:
Quintiles based on DI2000, per country.

DHLIFESATIS Life satisfaction

DHLIFESATIS = HDZ0310

Coding:
Numerical value
DHLQ01  Quintile, total liabilities, among indebted households

Coding:
Numerical value

DHN013  Number of children in household (0-13)

Coding:
Numerical value

DHNQ01  Quintile, net wealth, among households

Coding:
Numerical value

Survey definition:
Quintiles based on DN3001, per country.

DHRA0100H  Relationship to the interview reference person (RA0100) of reference person

Coding:
Numerical value

Survey definition:
Variable provided for four alternative RP definitions:
DHRA0100H - interview RP
DHRA0100H1 - UN/Canberra definition applied to HFCS (used for HFCS statistical output)
DHRA0100H2 - person with the highest income as RP
DHRA0100H3 - male in RP couple
DHREGION  Region (national coding)

Recoded from the core variable SA0300 Area of residence of the household (national coding).

Coding:

AT11 - Burgenland
AT12 - Lower Austria
AT13 - Vienna
AT21 - Carinthia
AT22 - Styria
AT31 - Upper Austria
AT32 - Salzburg
AT33 - Tyrol
AT34 - Vorarlberg
CYLI - Limassol
CYLA - Larnaca
CYNI - Nicosia
CYPA - Paphos
EL3 - Attiki
EL4 - Nisia Aigaiou, Kriti
EL5 - Voreia Ellada
EL6 - Kentriki Ellada
EE1 - Põhja-Eesti (Harju County)
EE2 - Other regions in Estonia
FI1B - Helsinki-Uusimaa and Åland
FI1C - Southern Finland
FI19 - Western Finland
FI1D - Northern and Eastern Finland
FR0 - Départements d’Outre Mer
FR1 - Île de France
FR2 - Bassin Parisienne
FR3 - Nord-Pas-de-Calais
FR4 - Est
FR5 - Ouest
FR6 - Sud-Ouest
FR7 - Centre-Est
FR8 - Méditerranée
DENW - Lower Saxony, Schleswig-Holstein, Hamburg, Bremen
DEWW - North Rhine-Westphalia, Rhineland-Palatinate, Saarland
DEOS - Mecklenburg-West Pomerania, Saxony Anhalt, Brandenburg, Berlin, Thuringia, Saxony
DESW - Bavaria, Baden-Württemberg, Hesse
IE04 - Northern and Western
IE05 - Southern
IE06 - Eastern and Midland
DHTIMEEH1  Total time in employment for reference person, Canberra definition

DHTIMEEH1 = PE1005 when RA0010=DHIDH1

Coding:

Numerical value
**DI1100**  Employee income

\[ DI1100 = \text{Sum of PG0110 for household members} \]

**Coding:**
Numerical value

**Survey definition:**
Total employee income of the household

**DI1100i**  Has employee income

**Coding:**
1 - yes
0 - no

**DI1200**  Self-employment income

\[ DI1200 = \text{Sum of PG0210 for household members} \]

**Coding:**
Numerical value

**DI1200i**  Has self-employment income

**Coding:**
1 - yes
0 - no

**DI1300**  Rental income from real estate property

\[ DI1300 = \text{HG0310} \]

**Coding:**
Numerical value

**DI1300i**  Has rental income from real estate property

**Coding:**
DI1400  Income from financial assets

\[ DI1400 = DI1410 + DI1420 \]

**Coding:**
Numerical value

DI1400i  Has income from financial investments

**Coding:**
1 - yes
0 - no

DI1410  Income from financial assets, gross of interest payments

\[ DI1410 = HG0410 \]

**Coding:**
Numerical value

DI1410i  Has income from financial assets, gross of interest payments

**Coding:**
1 - yes
0 - no

DI1412  Interest payments

\[ DI1412 = \text{Sum of (HB170x * HB190x) + Sum of (HB370xy * HB390xy) + Sum of (HC080x * HC090x)} \]

**Coding:**
Numerical value

**Survey definition:**
The sum of interest times the outstanding balance for the HMR, other property and other loans.
Up to 3 (2) loans of each type included - depending on the number loops used in the national questionnaire.

**DI1420**  Income from private business other than self-employment

DI1420 = HG0510

**Coding:**

Numerical value

**DI1420i**  Has income from private business other than self-employment

**Coding:**

1 - yes
0 - no

**DI1500**  Income from pensions

DI1500 = DI1510 + DI1520

**Coding:**

Numerical value

**DI1500i**  Has income from pensions

**Coding:**

1 - yes
0 - no

**DI1510**  Income from public pensions

DI1510 = Sum of PG0310 for household members

**Coding:**

Numerical value

**DI1510i**  Has income from public pensions

**Coding:**
DI1520  Income from occupational and private pensions  
\[ DI1520 = \text{Sum of PG0410 for household members} \]

**Coding:**
Numerical value

DI1520i  Has income from occupational and private pensions

**Coding:**
1 - yes
0 - no

DI1600  Regular social transfers (except pensions)  
\[ DI1600 = DI1610 + DI1620 \]

**Coding:**
Numerical value

**Survey definition:**
Unemployment benefits + gross income from regular social transfers

DI1600i  Has income from regular social transfers (except pensions)

**Coding:**
1 - yes
0 - no

DI1610  Unemployment benefits
\[ DI1610 = \text{Sum of PG0510 for household members} \]

**Coding:**
Numerical value

1 - yes
0 - no

DI1900 Financial assistance from relatives and friends

DI1900 = HG0260

Coding:

Numerical value

DI1900i Has financial assistance from relatives and friends

if HG0250=1 then 1
if HG0250=2 then 0

Coding:

1 - yes
0 - no

DI2000 Total household gross income 2, including interest payments

DI2000 = DI1100 + DI1200 + DI1300 + DI1400 + DI1500 + DI1600 + DI1700 + DI1800

Coding:

Numerical value

Survey definition:
Total gross annual household income aggregate.

DI2000eq Total household gross income, equalised

DI2000eq = DI2000 / DH0003

Coding:

Numerical value

Survey definition:
Total gross annual household income aggregate, equalised using the modified OECD equivalence scale.

**DI2100**  Total household gross income and financial assistance from relatives and friends

\[ DI2100 = DI1100 + DI1200 + DI1300 + DI1400 + DI1500 + DI1600 + DI1700 + DI1800 + DI1900 \]

**Coding:**
Numerical value

**DITOP10**  Country top 10% total gross income

**Coding:**
Numerical value

**Survey definition:**
Percentiles variable based on DI2000, per country.

Lower bound percentile intervals values: 0 - 0-5%, 5 - 5-10%, 10 - 10-20%, 20 - 20-30%, 30 - 30-40%, 40 - 40-50%, 50 - 50-60%, 60 - 60-70%, 70 - 70-80%, 80 - 80-90%, 90 - 90-95%, 95 - 95-99%, 99 - top 1%.

**DITOP10eq** Top 10% gross equalised income

**Coding:**
Numerical value

**Survey definition:**
Percentiles variable based on DI2000eq.

Lower bound percentile intervals values: 0 - 0-5%, 5 - 5-10%, 10 - 10-20%, 20 - 20-30%, 30 - 30-40%, 40 - 40-50%, 50 - 50-60%, 60 - 60-70%, 70 - 70-80%, 80 - 80-90%, 90 - 90-95%, 95 - 95-99%, 99 - top 1%.

**DL1000**  Total outstanding balance of household's liabilities

\[ DL1000 = DL1100 + DL1200 \]

**Coding:**
**DL1000i  Has debt**

**Coding:**

1 - yes
0 - no

**DL1100  Outstanding balance of mortgage debt**

\[ DL1100 = DL1110 + DL1120 \]

**Coding:**

Numerical value

**Survey definition:**

Outstanding balance of mortgage debt ('collateralised liabilities', 'secured debt') owed by households on all properties they own. This is the sum of mortgage debt with HMR as collateral and the mortgage debt collateralised on other household properties.

**DL1100i  Has mortgage debt**

**Coding:**

1 - yes
0 - no

**DL1110  Outstanding balance of HMR mortgages**

\[ DL1110 = \text{Sum of (HB170x)} + \text{HB2100} \]

**Coding:**

Numerical value

**DL1110a  Outstanding balance of adjustable interest rate HMR mortgages**

\[ \text{sum of(HB170x) where HB180x=1} \]

**Coding:**
DL1110ai Has adjustable interest rate HMR mortgage

Coding:
1 - yes
0 - no

DL1110b Outstanding balance of fixed interest rate HMR mortgages

sum of(HB170x) where HB180x=2

Coding:
Numerical value

DL1110bi Has fixed interest rate HMR mortgage

Coding:
1 - yes
0 - no

DL1110c Outstanding balance of unknown interest rate regime HMR mortgages

sum of(HB170x) where HB180x not in (1,2) + HB2100

Coding:
Numerical value

DL1110ci Has unknown interest rate regime HMR mortgage

Coding:
1 - yes
0 - no

DL1110i Has HMR mortgage debt

Coding:
1 - yes
0 - no

**DL1120** Outstanding balance of mortgages on other properties

\[
DL1120 = \text{Sum of (HB370xy)} + HB4105
\]

**Coding:**
Numerical value

**DL1120a** Outstanding balance of adjustable interest rate mortgages on other properties

\[
\text{sum of(HB370xy) where HB380xy} = 1
\]

**Coding:**
Numerical value

**DL1120ai** Has adjustable interest rate other property mortgage

**Coding:**
1 - yes
0 - no

**DL1120b** Outstanding balance of fixed interest rate mortgages on other properties

\[
\text{sum of(HB370xy) where HB380xy} = 2
\]

**Coding:**
Numerical value

**DL1120bi** Has fixed interest rate other property mortgage

**Coding:**
1 - yes
0 - no
DL1120c  Outstanding balance of unknown interest rate regime mortgages on other properties

\[ \text{sum of(}HB370xy\text{) where } HB380xy \text{ not in (1,2)} + HB4100 \]

Coding:

Numerical value

DL1120ci  Has unknown interest rate regime other property mortgage

Coding:

1 - yes
0 - no

DL1120i  Has other property mortgage

Coding:

1 - yes
0 - no

DL1200  Outstanding balance of other, non-mortgage debt

\[ DL1200 = DL1210 + DL1220 + DL1230 \]

Coding:

Numerical value

Survey definition:

Survey definition:

Outstanding balance of other, non-mortgage debt (total unsecured debt /non-collateralised liabilities) includes outstanding balances on credit lines or overdrafts, outstanding balance of credit cards for which the owner of the card is charged interest, and outstanding balances on all other loans (car loans, consumer loans, instalment loans, private loans from relatives, friends, employers etc.)

DL1200i  Has non-mortgage debt

Coding:

1 - yes
0 - no
DL1210 Outstanding balance of credit line/overdraft

\[
DL_{1210} = HC_{220}
\]

**Coding:**
Numerical value

DL1210i Has credit line/overdraft debt

**Coding:**

1 - yes
0 - no

DL1220 Outstanding balance of credit card debt

\[
DL_{1220} = HC_{320}
\]

**Coding:**
Numerical value

DL1220i Has credit card debt

**Coding:**

1 - yes
0 - no

DL1230 Outstanding balance of other non-mortgage loans

\[
DL_{1230} = DL_{1231} + DL_{1232}
\]

**Coding:**
Numerical value

**Survey definition:**
Other non-mortgage loans include all consumer, personal, private, employer, and instalment loans.

DL1230i Has other non-collateralised loans

**Coding:**
Outstanding balance of private loans

\[ DL1231 = \text{sum of (HC036x)} + HC0370 \]

**Coding:**

Numerical value

Has private loans

**Coding:**

1 - yes
0 - no

Outstanding balance of other non-private non-collateralised loans

\[ DL1232 = \text{sum of (HC080x)} + HC1100 \]

**Coding:**

Numerical value

**Survey definition:**

Other non-mortgage loans include all consumer, employer, and instalment loans, excluding any private loans covered in DL1232.

Has other non-private non-collateralised loans

**Coding:**

1 - yes
0 - no

Payments for household's total debt (flow)

\[ DL2000 = DL2100 + DL2200 \]

**Coding:**

Numerical value
Survey definition:

Payments for household’s total debt are the monthly payments (or the monthly equivalent of other time frequency payments) of the household to the lender to repay the loan. They include interest and repayment but exclude any required payments for taxes, insurance and other fees. The household’s total payments include the payments for mortgages and the payments for other loans, such as car loans, consumer and instalment loans and loans from relatives, friends, employers etc.

**DL2000i**  Has debt payments

**Coding:**

1 - yes  
0 - no

**DL2100**  Payments for mortgages (flow)

DL2100 = DL2110 + DL2120

**Coding:**

Numerical value

Survey definition:

Payments made to repay all mortgages, for the HMR and other properties.

**DL2100i**  Has mortgage payments

**Coding:**

1 - yes  
0 - no

**DL2110**  Payments for HMR mortgages (flow)

DL2110 = Sum of (HB200x) + HB2200

**Coding:**

Numerical value

Survey definition:

Payments made to repay HMR mortgages
DL2110i  Has HMR mortgage payments

   Coding:
   1 - yes
   0 - no

DL2120  Payments for other property mortgages (flow)

   DL2120 = Sum of (HB400xy) + HB4200

   Coding:
   Numerical value

DL2120i Has other property mortgage payments

   Coding:
   1 - yes
   0 - no

DL2200  Payments for non-collateralised debt (flow)

   DL2210 = Sum of (HC100x) + HC1200

   Coding:
   Numerical value

   Survey definition:
   Payments for other debt include payments for loans such as car loans, consumer and instalment loans and loans from relatives, friends, employers etc.

DL2200i Has non-collateralised debt payments

   Coding:
   1 - yes
   0 - no

DLCC  Has credit card

   DLCC=1 if HC0300=1, DLCC=0 if HC0300=2, missing otherwise.
Survey definition:
Indicator variable on ownership of credit cards. Unlike DL1220i for credit card debt, it captures the ownership/access to the product and 1 is coded even if no current debt is accumulated.

DLCL Has credit line/overdraft
DLCL=1 if HC0200=1, DLCL=0 if HC0200=2, missing otherwise.

Survey definition:
Indicator variable on having credit line/bank overdraft. Unlike DL1210i for credit line/overdraft debt, it captures the ownership/access to the product and 1 is coded even if no current debt is accumulated.

DLTOP10 Top 10% total liabilities

Survey definition:
Percentiles variable based on DL1000.
Lower bound percentile intervals values: 0 - 0-5%, 5 - 5-10%, 10 -10-20%,20 - 20-30%, 30 - 30-40%, 40 - 40-50%, 50 - 50-60%, 60 - 60-70%, 70 - 70-80%, 80 - 80-90%, 90 - 90-95%, 95 - 95-99%, 99 - top 1%.

DN3001 Net wealth , excl. Public and occupational pensions
DN3001 = DA3001 - DL1000

Survey definition:
Numerical value
Survey definition:
Total household assets excluding public and occupational pension wealth minus total outstanding household’s liabilities

DNFPOS  Net financial position [Net financial wealth]

$\text{DNFPOS} = \text{DA2100} - \text{DL1000}$

Coding:
Numerical value

Survey definition:
Financial assets minus total debt.

DNHW  Net housing wealth

$\text{DNHW} = \text{DA1110} - \text{DL1110}$

Coding:
Numerical value

Survey definition:
Net value of housing wealth (value of the household main residence minus outstanding amount of HMR mortgages).
Zero for non-owners without HMR mortgage.

DNNLA  Net liquid assets

$\text{DNNLA} = \text{DA2101} + \text{DA2102} + \text{DA2103} + \text{DA2104} + \text{DA2105} + \text{DA2106} - \text{DL1210} - \text{DL1220} - \text{DL1230}$

Coding:
Numerical value

Survey definition:
Sum of liquid financial assets minus non-collateralised debt.

DNNLAI  Has net liquid assets

Coding:
DNNLAratio Net liquid assets as a fraction of annual gross income

Coding:
Numerical value

DNTOP10 Top 10% net wealth

Coding:
Numerical value

Survey definition:
Percentiles variable based on DN3001.
Lower bound percentile intervals values: 0 - 0-5%, 5 - 5-10%, 10 - 10-20%, 20 - 20-30%, 30 - 30-40%, 40 - 40-50%, 50 - 50-60%, 60 - 60-70%, 70 - 70-80%, 80 - 80-90%, 90 - 90-95%, 95 - 95-99%, 99 - top 1%.

DOABLETOSAVE Regular expenses less than income

Coding:
1 - yes
0 - no

DOCOGOOD Amount spent on consumer goods and services

DOCOGOOD = HI0220*12

Coding:
Numerical value

DOCOGOODP Amount spent on consumer goods and services as a share of income

DOCOGOODP = DOCOGOOD/DI2000

Coding:
Numerical value
**DOCREDITAPPL**  Applied for credit within last 3 years

if HC1300=1 then 1
if HC1300=2 then 0

**Coding:**

1 - yes  
0 - no

**DOCREDITC**  Credit constrained household

Equals to 1 if (HC1310=1 and HC1320 not 1) or (HC1310=2) or (HC1400=1), otherwise equals to 0.

**Coding:**

1 - yes  
0 - no

**Survey definition:**

Credit constraint households: constructed based on the HFCS variables HC1310  
Was refused credit, HC1320 Re-applying for credit and HC1400 not applying for credit due to perceived credit constrain.

The following cases are taken as credit constraint households:

- applied for credit and were turned down (HC1310=1) and do not report successful later re-application (HC1320 not 1)
- applied for credit and were not given as much as applied for (HC1310=2)
- did not apply for credit due to perceived credit constraint (HC1400=1).

**DOCREDITREFUSAL**  Experienced credit refusal or reduction(among those applying in last 3 years)

if HC1310 in (1,2) then 1
if HC1310=3 then 0
otherwise missing

**Coding:**

1 - yes  
0 - no

**Survey definition:**
Households experiencing credit refusal of not been given the requested amount of credit.

**DOCREDITREFUSED**    Refused or only reduced credit (among those applying in last 3 years)

if HC1310=1 or 2 then 1  
if HC1310=3 then 0  

**Coding:**  
1 - yes  
0 - no  

**DODARATIO**    Debt to asset ratio (DL1000/DA3001)

if DA3001>0 and DL1000>=0 then DODARATIO=(DL1000/DA3001)  
if DA3001=0 and DL1000>=0 then DODARATIO=(DL1000/1)  

**Coding:**  
Numerical value  

**Survey definition:**  
Ratio between total liabilities (DL1000) and total gross assets (DA3001) for indebted households.  
Zero total gross assets are bottom-coded at 1 euro.  
Defined for indebted households (DL1000>0).

**DODARATIO75P**    Debt to asset ratio>=75%

**Coding:**  
1 - yes  
0 - no  

**DODIRATIO**    Debt to income ratio (DL1000/DI2000)

if DI2000>0 and DL1000>=0 then DODIRATIO=DL1000/DI2000  
if DI2000=0 and DL1000>=0 then DODIRATIO=(DL1000/1)  

**Coding:**
Numerical value

**Survey definition:**

Ratio between total liabilities (DL1000) and total gross household income (DI2000) for indebted households (DL1000>0).

Zero incomes bottom-coded at 1 euro.

**DODIRATIO300p** Debt to income ratio>=3

**Coding:**

1 - yes
0 - no

**DODIRATIOM** Mortgage debt to income ratio (DL1100/DI2000)

if DI2000>0 and DL1000>=0 then DODIRATIO=DL1000/DI2000
if DI2000=0 and DL1000>0 then DODIRATIO=(DL1000/1)

**Coding:**

Numerical value

**Survey definition:**

Ratio between total liabilities (DL1000) and total gross household income (DI2000) for indebted households (DL1000>0).

Zero incomes bottom-coded at 1 euro.

**DODIRATIOM300p** Mortgage debt to income ratio>=3

**Coding:**

1 - yes
0 - no

**DODNI** Net wealth to income ratio

**Coding:**

Numerical value
DODSMORTG  Mortgage debt service to income ratio

IF DL1100>0 THEN DODSMORTG=0
then
if DL2100>=0 AND DI2000>=0 THEN DODSMORTG=DL2100/(DI2000/12)
if DL2100>0 AND DI2000=0 THEN DODSMORTG=(DL2100/1)

Coding:
Numerical value

Survey definition:
Ratio between total monthly mortgage debt payments (DL2100) and household gross monthly income (DI2000/12). Zero income bottom coded at 1 euro/month.

Defined for all households with mortgage debt (DL1100>0), households with mortgage debt in DL1100 and no payments for mortgage debt in DL2100 get the value 0.

DODSMORTG40P  Mortgage debt service to income ratio >= 40 %

Coding:
1 - yes
0 - no

DODSMORTGHMR  HMR Mortgage debt service to income ratio

IF DL1110>0 THEN DODSMORTGHMR=0
then
if DL2110>=0 AND DI2000>0 THEN DODSMORTGHMR=DL2110/(DI2000/12)
if DL2110>0 AND DI2000=0 THEN DODSMORTGHMR=(DL2110/1)

Coding:
Numerical value

Survey definition:
Ratio between total monthly HMR mortgage debt payments (DL2110) and household gross monthly income (DI2000/12). Zero income bottom coded at 1 euro/month.

Defined for all households with HMR mortgage debt (DL1110>0), households with HMR mortgage debt in DL1110 and no payments for HMR mortgage debt in DL2110 get the value 0.
DODSTOTAL  
Debt service to income ratio

IF DL1000>0 THEN DODSTOTAL=0
then
if DL2000>=0 AND DI2000>0 THEN DODSTOTAL=DL2000/(DI2000/12)
if DL2000>0 AND DI2000=0 THEN DODSTOTAL=(DL2000/1)

Coding:
Numerical value

Survey definition:
Ratio between total monthly debt payments (DL2000) and household gross monthly income (DI2000/12). Zero income bottom coded at 1 euro/month.

Defined for all households with debt (DL1000>0), households with debt in DL1000 and no payments in DL2000 get the value 0.

DODSTOTAL40P  
Debt service to income ratio >= 40 %

if DODSTOTAL>=0.40 then DODSTOTAL40P=1
if 0<=DODSTOTAL<0.40 THEN DODSTOTAL40P=0

Coding:
1 - yes
0 - no

DODSTOTAL40Pp  
Debt service to income ratio >= 40 %, households with debt payments

if DODSTOTALp>=0.40 then DODSTOTAL40Pp=1
if 0<=DODSTOTALp<0.40 THEN DODSTOTAL40Pp=0

Coding:
Numerical value

DODSTOTALp  
Debt service to income ratio, households with debt payments

DODSTOTALp=DL2000/DI2000

Coding:
Numerical value

Survey definition:
Debt service to income ratio for households holding debt instruments for which payments are collected (household main residence mortgages, other property mortgages, non-mortgage loans). Households only having credit line/overdraft and/or credit card debt, for which debt payments are not collected in the survey, are excluded - their values set to missing.

Zero and negative income values in the denominator are bottom coded at 1 Euro.

**DOEINHERIT**  
Expecting to receive inheritance in the future

if HH0700=1 then 1  
if HH0700=2 then 0

**Coding:**

<table>
<thead>
<tr>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>yes</td>
</tr>
<tr>
<td>0</td>
<td>no</td>
</tr>
</tbody>
</table>

**DOFINASSETS**  
Household has financial assets excluding sight accounts

**Coding:**

<table>
<thead>
<tr>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>yes</td>
</tr>
<tr>
<td>0</td>
<td>no</td>
</tr>
</tbody>
</table>

**DOFINASSIST**  
Ability to get financial assistance from friends or relatives

if HI0800=1 then 1  
if HI0800=2 then 0

**Coding:**

<table>
<thead>
<tr>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>yes</td>
</tr>
<tr>
<td>0</td>
<td>no</td>
</tr>
</tbody>
</table>

**DOFOODC**  
Food expenditure in a month at home/outside home

**Coding:**

<table>
<thead>
<tr>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Numerical value</td>
</tr>
</tbody>
</table>
DOFOODCH  Food expenditure in a month (at home)

DOFOODCH = HI0100

Coding:
Numerical value

DOFOODCHUC  Food expenditure at home per consumption unit

Coding:
Numerical value

Survey definition:
DOFOODCH equalised using the modified OECD equivalence scale (1/0.5/0.3).

DOFOODCP  Food expenditure as a share of income

Coding:
Numerical value

DOFOODCUC  Food expenditure at home/outside home per consumption unit

Coding:
Numerical value

Survey definition:
DOFOODC equalised using the modified OECD equivalence scale (1/0.5/0.3).

DOGIFTINHER  Amount of received gifts and inheritances

DOGIFTINHER = sum(HH0401, HH0402, HH0403)

Coding:
Numerical value

Survey definition:
Warning: includes up to three, in countries with two questionnaire loops up to two, main gifts and inheritances. Household main residence, reported in the question on its way of acquisition, may be excluded from the amount here.
DOHHSQM  HMR value per square meter

DOHHSQM = HB0900 / HB0100

Coding:
Numerical value

DOHMROONLY  Value of HMR>=99 % of total assets

Coding:
1 - yes
0 - no

DOINHERIT  Substantial inheritance/gift received

if HH0100=1 then 1
if HH0100=2 then 0

Coding:
1 - yes
0 - no

DOLOTTGOOD  Unexpected windfall gain – percentage spent on goods and services

DOLOTTGOOD = HIZ040a

Coding:
Numerical value

DOLTVRATIO  Loan to value ratio of main residence

if DL1110>0 and DA1110>0 then DOLTVRATIO=(DL1110/DA1110)
if DL1110>0 and DA1110<=0 then DOLTVRATIO=(DL1110/1)

Coding:
Numerical value

Survey definition:
Ratio between outstanding amount of HMR mortgage (DL1110) and current value of the HMR (DA1110).
Eventual zero or negative HMR values are bottom coded at 1 euro.

Defined for households with outstanding HMR mortgage debt (DA1110>0).

**DOLTVRATIO75P**  
Loan to value ratio $\geq 75\%$

**Coding:**

1 - yes
0 - no

**DOTRIPSH**  
Annual expenses on trips and holidays

**DOTRIPSH = HI0230**

**Coding:**

Numerical value

**DREFINANi**  
Has refinanced a loan (HMR or other property mortgages)

**DREFINANi = 1 if ANY HB310$x$y = 1 or ANY HB110$x = 1**

**Coding:**

1 - yes
0 - no
