| 6 | **Electronic invoice presentment and payment (EIPP) services**  
In response to the invitation by the ERPB in their November 2017 meeting, the EIPP multi-stakeholder group will present its work on the adoption of a technical ISO20022-based message for request-to-pay and the harmonisation of the EIPP servicing messages to form a ‘common language’ for communication between different EIPP providers. Following the step-by-step approach agreed by the ERPB in its November 2017 meeting, the members will be invited to consider the work on the next steps, namely (i) a common EIPP framework consisting of a minimum set of rules to support the integration of existing EIPP solutions and provide guidance on emerging EIPP solutions for delivering harmonised EIPP services, and (ii) minimum rules for enabling EIPP provider switching and required technical messages to allow payees and payers to move from one provider to another without onerous switching costs or effort.  
*Presented by: EIPP multi-stakeholder group co-chairs*  
*Document:*  
Report from the EIPP multi stakeholder group |
|---|---|
| 7 | **Broader accessibility**  
Further to a preliminary reporting in the November 2017 meeting, the informal group on broader accessibility will present its final report, including suggestions for possible next steps.  
*Presented by: Chair of the informal group on broader accessibility*  
*Document:*  
Final report from the informal group on broader accessibility |
