Agenda

1. Introduction
Welcome and adoption of the agenda of the meeting.

2. Digital euro and transformation of payments [14:05-14:50] ‘45
Andrej Bachmann (ECB) will provide an overview and update on the Digital Euro initiative, including initial results of the Eurosystem consultation closed in January 2021.

With a focus on global FX markets, Andrew Harvey (Global Financial Markets Association - GFMA) will present market insights and issues related to on-going cryptocurrency and central bank digital currency initiatives, analysing their potential impact on the operation of the market and governance aspects, current CPMI work on cross-border payments, and the wider impact on FX post trade activities.

Background GFXD documents:
- GFXD paper on interoperability
- GFXD paper discussing some of the considerations for market participants looking to use new settlement technologies
- GFXD paper on expanding PvP opportunities
- AFME/GFXD submission to the recent ECB questionnaire on a digital euro

4. FX execution algorithms (exchange of views) [15:50-16:10] ‘20
On 30 October 2020 the Bank for International Settlements (BIS) published a report on the role of execution algorithms (EAs) in the FX market, their increasing usage, as well as implications and challenges, which attracted closer attention of both market participants and policy makers. OMG members will be invited to exchange views on the impact of these developments on back office
operations and which tools are used at the back-office level. The topic will be introduced by Toma Tomov (ECB).
