Participants will discuss the topics presented in the meeting, with a particular emphasis on the following questions:

1) T2/T2S Consolidation - migration

a) What is your experience and lessons learnt following the migration to TARGET Services (T2/T2S Consolidation project)

b) What are your plans and expected timeline for the migration to ISO 20022 for cross-border payments and reporting (CBPR+)

2) Confirmation and settlement practices

a) In your experience is confirmation matching a smooth or cumbersome process?

b) How do you reconcile settlement instructions:
   o within the single trade confirmation matching process,
   o different process, e.g. pre-value payment reconciliation, checking of Swift Broadcasts etc..

c) Does your institution use DTCC Alert database?
   o Experiences?
   o Advantages?

3) CSDR Refit

a) One year after the introduction of the CSDR penalties mechanism, did you notice higher settlement efficiency?
   o What measures did you find particularly helpful to increase settlement efficiency?
   o What further initiatives could be taken to improve it?

b) Will the potential introduction of a mandatory buy-in have positive effects on settlement efficiency?

c) Do you believe that the implementation of a golden source database for reference data maintained by ESMA is necessary to harmonize the approach across CSDs (transactions in scope, calculation method, etc...)?
