11 June 2026

Chris Körner
DG MIP/Market Infrastructure Management Division

System performance — *Main incidents since last T2 CG of 18 February 2026*

No incident with significant impact on participants

Other operational activities

Update of TARGET Infoguide (version R2026.JUN)

Main changes:

- TARGET critical participants are required to test contingency/dual connection once every six months in live operations (PROD environment)
- Latest appropriate cut-off time - Indicate 22:00 as appropriate cut-off
- T2-0135-SYS (Additional routing configuration in CRDM for NSP failure scenarios)
- Rename TARGET Coordination Desk to T2/TIPS Coordination Desk
- New communication templates (more on point)

ECONS II live trial on 11 March 2026

Outcome

- ✓ Exercise in Production (9-15h)
- ✓ Participation was mandatory for critical participants and non-critical participants settling very critical payments
- **All operational procedures were executed successfully**
- Minor technical issues led to a slight delay in opening and closing ECONS II
