**Reason for change and expected benefits/business motivation:**

The Editorial changes listed in the annex are related to UDFS v2.0. Their incorporation into the UDFS v2.0 is required for clarifying and improving the specifications.

Concretely, the changes contain

- scope improvements that are not related to change requests,
- enhancements and changes performed due to differences between T2-T2S Consolidation URD v2.0 and UDFS v1.2,
- additional UDFS enhancements performed in relation to the development progress
- the inclusion of some market comments on the UDFS v1.1 and v1.1.1 which could not be included in the UDFS v2.0 and were therefore parked for being addressed in the next UDFS version.
