

General Information (Origin of Request)		
<input type="checkbox"/> User Requirements (URD) <input checked="" type="checkbox"/> Other User Functional or Technical Documentation (SYS)		
Request raised by: 4CB	Institute: 4CB	Date raised: 28/02/2013
Request title: Complement to the Billing service items list for clarification		Request ref. no: T2S 0393 SYS
Request type: Common		Urgency: Normal
1. Legal/business importance parameter: Medium	2. Market implementation efforts parameter: Low	
3. Operational/Technical risk parameter: Low	4. Financial impact parameter: No cost impact	
Requestor Category: 4CB	Status: Authorised at Steering Level	

Reason for change and expected benefits/business motivation:

The Service Item List does currently not provide all information detailed enough for the functional description. In order to ensure the correctness of the billing process according to the T2S pricing structure, slight amendments have to be supplemented into the Service Item List.

Description of requested change:

To straighten things up and getting the billing process correct the following clarifications have to be taken into account for the Service Item List:

1. DWPs (Delivery with Payment) are meant to be charged the same way like DVPs. This fact is not mentioned in the Service Item List.
2. The fact that 'realignment instructions are not charged' is not taken into account for all applicable Service Items in the List of Service Items. This has to be additionally considered for the cases mentioned below.
3. The surcharge for top/high priority applies only for successful settlement instructions and not for failed settlement attempts

Each Matched DVP (DWP), FOP, or PFOD which does not settle on its Intended Settlement Date will attract a surcharge irrespective of the number of settlement attempts on that settlement day.

Submitted annexes / related documents:

Proposed wording for the SYS Change request:

UDFS section < 1.6.5.7.6 Billing data collection process >

This section includes an extract of the Service Item list. The needed clarification should be added to the columns of 'Counted Events' and 'Further Information'.

All amendments to Service Items resulting from this CR are underlined (if added) or crossed-out (if deleted). Amendments in this list are the addition of 'DWPs' in the column 'counted events' (wherever 'DVPs' are mentioned) and the hint that "DWPs are charged in the same way like DVPs" in the column 'further information'.

The hint that "Realignment Instructions are not charged" is also added in the column 'further information' where needed.

For the top/high priority surcharge, it is deleted that it also applies for failed settlement instructions..

For failed Settlement Instructions it is added, that the charge applies only once per day irrespective of the number of settlement attempts.

Service Item	Charged to		Counted Events	Further Information
	Credited Securities Account	Debited Securities Account		
Delivery versus Payment ¹ (DVP) matched	x	x	Each DVP/ <u>DWP</u> : <ul style="list-style-type: none"> successfully matched in T2S during the billing period 	Both accounts are charged. The charge applied is a standard matching charge. <u>DWPs are charged in the same way like DVPs.</u>
