Procedures for SSP registration

1. Registration of Direct Participants

- The participant fills in the form and remits it to the CB with which it will hold the PM account.
- The CB informs the direct participant when the registration is completed.
- The same procedure would apply when the direct participant is located in another TARGET2 country or in an EEA country not connected to TARGET2.
Procedures for SSP registration

2. Registration of Ancillary Systems

• All settlement banks fill in a form 2002 (AS mandate), which are sent to the AS.
• For model 6 (interfaced), settlement banks should also fill in a form 1014 (for sub-a/c). Forms 1014 are sent to the CB of the settlement bank + copy the AS.

• The AS collects all the forms 2002 from its settlement banks and fills in its own forms (i.e. form 2000 and form 2001 listing all settlement banks).
• The AS will forward the whole package to its responsible CB.
• The responsible CB informs the AS when the registration is completed.
Procedures for SSP registration
3. Registration of Liquidity Pooling

- The GoA Manager of an approved group requests the creation of a GoA (form 1016). The CB assigns a GoA ID to the Group of Account and communicates it to the GoA Manager.
- This GoA ID is communicated by the GoA Manager to the GoA members.
- Each GoA member fills a form 1017, remits to its responsible CB + copy to GoA Manager.
- The GoA Manager submits the whole package of forms 1017 to its CB.
- The CB informs the GoA manager when the registration is completed.
Procedures for SSP registration

4. Registration of Indirect Participants

- The direct participant fills in the form 4000 for indirect participation and submits it to its responsible CB.
- The CB informs the direct participant when the registration is completed.
Procedures for SSP registration
5. Registration of HAM Account Holders

- In case a participant needs to open a HAM account, it fills in the forms 5xxx and sends it directly to its responsible CB, regardless of its type of participation in PM (direct, indirect or none).
- The CB informs the HAM account holder when the registration is completed.
Procedures for SSP registration
6. Registration of HAM Co-Management

- Each co-managed a/c holder asks its responsible CB for opening a HAM a/c (form 5100). A copy of the form is sent to the co-manager.
- Additionally they have to sign specific form 1102, which are collected and signed as well by the co-manager.

- The co-manager forwards the forms to its responsible CB (i.e. forms 5100 and 1102).
- The CB informs the co-manager when the registration is completed.
Procedures for SSP registration
7. Registration of Addressable BICs/ Multi-Addressee Access

- The direct participant fills in and sends the form 1013 to its responsible CB.
- The CB informs the direct participant when the registration is completed.
Procedures for SSP registration

8. Handling of conflicting registration requests

- When a CB receives a request for registering an indirect participant or addressable BIC (correspondent), which is already registered with another direct participant, this request is rejected.

- Contacts should take place between both direct participants and the correspondent in view of clarifying who should register it.

- After the agreement is reached, the form 1013 for deregistering is sent by the direct participant to the resp. CB and a copy for the other direct participant.

- The participant, which will get the business relationship, sends both forms 1013 (for deregistering and for registering) to its CB.

- The CB informs the direct participant when the registration is completed.
