Regarding the main components of M3, the annual rate of growth of M1 decreased to 4.4% in December 2010, from 4.6% in November. The annual rate of change of short-term deposits other than overnight deposits stood at -0.5% in December, unchanged from the previous month. The annual rate of change of marketable instruments decreased to -1.8% in December, from 0.5% in November.

Turning to the main counterparts of M3 on the asset side of the consolidated balance sheet of the MFI sector, the annual growth rate of total credit granted to euro area residents decreased to 3.5% in December 2010, from 4.0% in the previous month. The annual rate of growth of credit extended to general government decreased to 12.0% in December, from 13.3% in November, while the annual growth of credit extended to the private sector decreased to 1.6% in December, from 1.9% in the previous month. Among the components of the latter, the annual growth rate of loans to the private sector stood at 1.9% in December, compared with 2.0% in the previous month (adjusted for loan sales and securitisation2 the annual growth rate of loans to the private sector stood at 2.3%, unchanged from the previous month). The annual rate of change of loans to non-financial corporations stood at -0.2% in December, compared with -0.1% in November. The annual growth rate of loans to households increased to 3.0% in December, from 2.8% in the previous month. The annual rate of growth of lending for house purchase increased to 3.7% in December, from 3.4% in the previous month. The annual rate of change of consumer credit decreased to

---

1 These rates of change refer to aggregates adjusted for seasonal and end-of-month calendar effects.
2 Adjusted for the derecognition of loans from the MFI statistical balance sheet due to their sale or securitisation. The annual growth rate of loans adjusted for sales and securitisation is available at: http://sdw.ecb.int/search.do?type=serieskey&q=BSI.M.U2.Y.U.A26.A.I.U2.22^0.Z01.A
-0.9% in December, from -0.3% in November, while the annual growth rate of other lending to households increased to 2.7% in December, from 2.3% in the previous month. Finally, the annual rate of growth of loans to non-monetary financial intermediaries (except insurance corporations and pension funds) decreased to 5.2% in December, from 7.0% in the previous month.

Over the 12 months up to December 2010, the net external asset position of the euro area MFI sector decreased by EUR 79 billion, compared with a decrease of EUR 82 billion over the 12 months up to November. The annual rate of growth of longer-term financial liabilities of the MFI sector decreased to 3.8% in December, from 4.0% in November.

Notes

- In addition to the monthly monetary developments for the reference month, this press release incorporates minor revisions to the data for previous months.
- Euro area-wide reporting under Regulation ECB/2008/32 of 19 December 2008 concerning the balance sheet of the monetary and financial institutions sector, together with other changes to the statistical reporting framework and practices in several euro area countries, started with effect from the June 2010 reference period, reported in July. These changes may imply revisions to preliminary data in subsequent press releases.
- The latest data on monetary aggregates and counterparts contained in the statistical annex to this press release can be downloaded from the ECB’s Statistical Data Warehouse (http://sdw.ecb.europa.eu/browse.do?node=bbn1863). These data, as well as monthly and other shorter-term growth rates for selected items, longer time series for principal monetary aggregates (with a start date of January 1970) and methodological notes on the concepts underlying the monetary statistics and the related seasonal adjustment procedures, are also available on the ECB’s website (http://www.ecb.europa.eu/stats/money/aggregates/aggr/html/index.en.html).
- Data refer to the changing composition of the euro area, i.e. they cover the EU Member States that had adopted the euro at the time to which the statistics relate. Data on outstanding amounts include Greece as of January 2001, Slovenia as of January 2007, Cyprus and Malta as of January 2008 and Slovakia as of January 2009. The euro area aggregate data will cover Estonia from February 2011 onwards for data referring to January 2011.
- The publication of the statistics on monetary developments in January 2011, February 2011 and March 2011 is scheduled to take place at 10 am on 25 February 2011, 25 March 2011 and 29 April 2011 respectively.

a) Figures may not add up due to rounding. The information in this table is based on consolidated balance sheet statistics reported by monetary financial institutions (MFIs). These include the Eurosystem, credit institutions and money market funds located in the euro area.

b) Calculated from the monthly difference in levels adjusted for reclassifications, exchange rate variations, other revaluations and any other changes which do not arise from transactions.

c) Liabilities of monetary financial institutions (MFIs) and specific units of the central government (post offices, treasury) vis-à-vis non-MFI euro area residents excluding central government.

d) Includes holdings of the central government of deposits with the MFI sector and of securities issued by the MFI sector.

e) For further breakdowns see Table 4.

f) Adjusted for the derecognition of loans from the MFI statistical balance sheet due to their sale or securitisation.
