Community session – The future at your fingertips – the European market infrastructure of tomorrow

Monday, 26 September : 10:15 – 11:15, Conference room 5

The European market infrastructure landscape is transforming, and it's transforming fast. Since announcing its vision for the future, the Eurosystem has been investigating concrete steps to turn it into a reality. Consolidating and enhancing market infrastructure, and creating a single interface for cash, securities and collateral is under consideration. This exciting endeavour calls for unity and collaboration between the public and private sectors. How can the needs of the market be met? How can we prepare for what's to come? Will new technologies, such as distributed ledger technology (DLT), be our ally or will the winds of change dissuade us from our course?

Opening remarks: Yves Mersch, Executive Board Member, European Central Bank

Panel: Philip Brown, Co-CEO of Clearstream Banking

Antonio Massanell Lavilla, Deputy Chairman, Caixa Bank

Udo Milkau, Head of Strategy and Market Development, Transaction Banking, DZ Bank

Lieve Mostrey, Chief Technology and Services Officer, Euroclear

Moderator: Marc Bayle de Jessé, Director General, European Central Bank
