BRIDGING TABLES BETWEEN THE ACCOUNTING BALANCE SHEET ITEMS OF THE NCBS AND THE ECB AND THE ITEMS TO BE REPORTED FOR STATISTICAL PURPOSES

Version of 14 October 2014

The bridging tables provide guidance to NCBs and the ECB on how to derive from their own accounting balance sheets the statistical information that must be reported to comply with Article 3 (concerning MFI balance sheet statistics) of Guideline ECB/2014/15¹.

The reporting requirements in respect of NCB accounting balance sheets follow Guideline ECB/2010/20 on the legal framework for accounting and financial reporting in the ESCB, as amended by Guideline ECB/2012/29. These requirements concern outstanding amounts of weekly and annual reporting, although the bridging tables in this document only refer to annual reporting.

The matching between statistical and accounting concepts is only provided for Table 1 ‘monthly stocks (balance sheet items)’² and is divided into two sections. Section (a) ‘Standard bridging table (from accounting to statistics)’ presents the bridging information sorted by reference to the accounting items. Section (b) ‘Reverse bridging table (from statistics to accounting)’ presents the same bridging information sorted by reference to the statistical instruments. The matching for the other tables required under Guideline ECB/2014/15 should be derived from the matching provided for Table 1.

The bridging tables provide corresponding items for every accounting item described in Guideline ECB/2010/20 with all potential statistical instruments that may be used for the statistical reporting. Where possible, corresponding items relating to the currency of the instrument are also provided. However, corresponding items in respect of other data dimensions (for example with ‘original maturity’, ‘counterpart area’ or ‘balance sheet counterpart sector’) cannot be provided systematically as the necessary information cannot be derived from the ESCB

¹ Guideline ECB/2014/15 of 4 April 2014 on monetary financial statistics. Not yet published in the Official Journal.

² See Table 1 of Annex 1 to Regulation (EU) No 1071/2013 of the European Central Bank of 23 September 2013 concerning the balance sheet of the monetary financial institutions sector (ECB/2013/33) (OJ L 297, 7.11.2013, p. 1).

Notes

- [*] Indicates that the statistical instrument is a caption without series key defined, with the consequence that every accounting item bridged with that statistical caption must instead be reported to one or more of its subcomponents for which series keys are defined.
- [xx] Identification numbers within brackets refer to accounting components identified as sub-items in the ESCB legal framework for accounting and financial reporting. Accounting sub-items are not reported distinctly for accounting purposes as single components, but are reported mixed with several other interrelated sub-items. The statistical reporting may however follow other arrangements.
