

ECB Survey of Monetary Analysts (SMA)

June 2021

Thank you for participating in this survey – your time and input are greatly appreciated.

Please return the completed questionnaire to the ECB's email address ecb-sma@ecb.europa.eu by 18:00 CET on Friday, 28 May 2021.

Disclaimer: This survey has been formulated by ECB staff; members of the ECB's decision-making bodies are not involved in the formulation of the survey. The survey's purpose is to gather analysts' expectations of the evolution of monetary policy instruments and initiatives that the ECB has already announced, as well as their expectations for the economy and financial markets. The questions never presume or signal an intention to undertake any particular policy action in the future.

Legal statement: Your individual answers to this voluntary survey will be treated confidentially by ECB staff, in accordance with applicable Union law, and used for the purpose of the survey only. The results of the survey will be published in aggregate form on the ECB website. If public disclosure of your individual answers were required the ECB would seek to obtain your prior consent.

Completing the questionnaire

The questionnaire is organised in four separate sections:

1. Key ECB Interest Rates, Market Rates and Conditions;
2. Asset Purchases and Reinvestment;
3. Refinancing Operations;
4. Macroeconomic Outlook.

You are invited to respond to all questions, although if you are unable to respond to a question you may leave it blank.

An additional section is included at the end of the questionnaire should you wish to provide any further information or feedback.

Entering your responses

For your ease of reference, in certain sections of the questionnaire recent values of the data have been included. Details about the recent values and their cut-off dates can be found in the “Reference Data” Annex to this questionnaire.

Data format

If a percentage rate is required as input, always omit the % sign. Similarly, if the question asks you to express the answer in basis points, always omit bps. If a date is required as input, always provide it in the format MMM YYYY (e.g. Apr 2019).

Unless otherwise stated, the questionnaire asks for future realisations of monetary policy instruments, financial and macroeconomic variables that you consider *most likely* to prevail over specific forecast horizons. In other words, your forecasts should reflect your modal projections over the forecast horizons and, if possible, should be mutually consistent for all surveyed variables.

Market rates

Please note that this survey asks for the level of the euro short-term rate (€STR) instead of the euro overnight index average (EONIA). The €STR reflects the wholesale euro unsecured overnight borrowing costs of euro area banks and complements existing benchmark rates. EONIA is a measure of the euro interbank overnight lending conditions. As of 2 October 2019, the EONIA methodology has been redefined as the €STR plus a spread of 8.5 basis points. The EONIA will be discontinued on 3 January 2022.

For the sake of brevity, the questionnaire focuses on the €STR. However, the ECB considers the entire set of available interest rates when assessing prevailing market conditions.

Macroeconomic variables

For real GDP growth you are asked to provide your expectations of the change in the variable in quarter-on-quarter (q-o-q) terms (not annualised), that are calendar and seasonally adjusted. In addition, you are asked for your expectations of the long run growth rate of GDP and of GDP growth at the time of the next increase in key interest rates – this should be provided in year-on-year (y-o-y) terms.

For HICP inflation and HICP inflation excluding energy and food, you are asked to provide your expectations of the change in the variable in y-o-y terms, both for the projections you are invited to provide and for the inflation rate you foresee prevailing

at the time of the next increase in key interest rates. If your institution constructs projections at a monthly frequency for these variables, then a quarterly frequency may be calculated by taking the average of the y-o-y changes for each of the three months in the quarter.

For the unemployment rate you are asked to provide period averages in seasonally adjusted terms, both for the projections you are invited to provide and for the unemployment rate you foresee prevailing at the time of the next increase in key interest rates.

Administration and contacts

If you have any questions, please contact us at ecb-sma@ecb.europa.eu.

If your contact details or the contact person (i.e. the person that should receive the survey questionnaire) has changed, please inform us of the new details by sending an email to ecb-sma@ecb.europa.eu.

Privacy statement for the Survey of Monetary Analysts (SMA)

Participation in the Survey of Monetary Analysts (SMA) is voluntary.

All personal data are processed in accordance with EU Data Protection Law.¹ The European Central Bank (ECB) is the controller and the Monetary Policy Strategy Division in the ECB's Directorate General Monetary Policy is the unit responsible for processing your data.

Your personal data are processed based on your consent. The purpose of the processing is to maintain a list of contact persons in the participating organisations to whom any questions related to the survey may be addressed. There will be no further processing of your personal information if you withdraw your consent, although earlier processing will remain lawful.

Personal data will be accessed by the ECB staff members directly involved in the SMA.

Your personal data are stored for as long as your organisation participates in the survey and will be deleted after that. Your personal data will also be deleted as soon as the ECB receives notification that you no longer act as the contact person for your organisation, or if a new contact person has been nominated.

You have the right to access, rectify or (with some limitations) request deletion of your personal data or restriction of the processing of your data in line with Regulation

¹ Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC.

EUROPEAN CENTRAL BANK

EUROSYSTEM

(EU) 2018/1725. You can exercise these rights by sending an email to ecb-sma@ecb.europa.eu. If you have any further questions, please contact the ECB's Data Protection Officer (dpo@ecb.europa.eu).

Furthermore, you have the right to contact the [European Data Protection Supervisor](#) at any time regarding the processing of your personal data.

1 Key ECB Interest Rates, Market Rates and Conditions

1.1

1.1.1 Please indicate the percentage chance you attach to the next rate *change* being an increase or a decrease, the most likely timing of such a change and the size of change you expect.²

DFR				
Direction	Probability	Month	Year	Size
Increase				
Decrease				

MRO				
Direction	Probability	Month	Year	Size
Increase				
Decrease				

MLF				
Direction	Probability	Month	Year	Size
Increase				
Decrease				

1.1.2 Please indicate the percentage chance you attach to the dates surrounding the timing of the next rate *change* (*increase or decrease*) that you specified in your response to Question 1.1.1.³

DFR	Dates are centred on your answer to Q1.1.1; step size is at the Governing Council frequency							
Increase								Check
Probability								sum is 100%

² The probabilities of an increase or decrease must add up to 100%. DFR refers to the rate on the deposit facility, MRO refers to the rate on main refinancing operations and MLF refers to the rate on the marginal lending facility. Please include the sign of the rate change (+ for an increase, - for a decrease).

³ Responses must add up to 100%. Please omit the % sign when entering the data.

DFR	Dates are centred on your answer to Q1.1.1; step size is at the Governing Council frequency							
Decrease								Check
Probability								sum is 100%

MRO	Dates are centred on your answer to Q1.1.1; step size is at the Governing Council frequency							
Increase								Check
Probability								sum is 100%

MRO	Dates are centred on your answer to Q1.1.1; step size is at the Governing Council frequency							
Decrease								Check
Probability								sum is 100%

1.1.3 Please indicate the percentage chance you attach to larger and smaller sizes of the next *change (increase or decrease)* in the DFR and MRO that you specified in your response to Question 1.1.1.⁴

Size of change for a rate decrease (in bps)												
	<-50	-50	-45	-40	-35	-30	-25	-20	-15	-10	-5	Check
DFR												
MRO												

Size of change for a rate increase (in bps)												
	5	10	15	20	25	30	35	40	45	50	>50	Check
DFR												
MRO												

⁴ Responses must add up to 100%. Please omit the % sign when entering the data.

If applicable, please state the factors behind any change in your answers to Question 1.1 since the previous survey and explain your answer in more detail.

1.2 Please indicate the level (in percentage per annum) of the following interest rates⁵ that you consider most likely (i.e. the mode) to prevail over the reserve maintenance period⁶ after the Governing Council meetings listed below. Also, indicate the level that you consider most likely (i.e. the mode) to prevail at the end of each of the quarters and years listed below, and in the long run.

Please note that this survey asks for levels of the €STR instead of EONIA.

Governing Council meetings	DFR	MRO	MLF	€STR	3-month EURIBOR

Long run ⁷					

1.3 What is your estimate of the level that the Governing Council would consider as a lower bound for each of the key interest rates?⁸

DFR	MRO	MLF

If applicable, please state the factors behind any change since the previous survey and explain your answer in more detail.

--

1.4 Please indicate whether you expect any changes to the two-tier system for reserve remuneration, and – if you do – please provide details in the table.⁹

No	Yes

⁷ The long run should be interpreted as the horizon over which the effects of all shocks will vanish. For the purposes of this survey this can be interpreted, for the sake of simplicity, as around ten years.

⁸ Please omit the % sign when entering the data.

⁹ Please indicate your assessment with an "X". For more details, see https://www.ecb.europa.eu/press/pr/date/2019/html/ecb.pr190912_2-a0b47cd62a.en.html.

No	Yes

If you answered “yes”, please explain your answer in more detail, including your numerical expectation for the multiplier of the two-tier system.

Multiplier after expected change	Probability you attach to the announcement ¹⁰	Timing of announcement		Timing of implementation	
		Month (Format: MMM)	Year (Format: YYYY)	Month (Format: MMM)	Year (Format: YYYY)

1.5

In the Introductory Statement to the April 2021 press conference, the Governing Council stated that it expects the key ECB interest rates “to remain at their present or lower levels until we have seen the inflation outlook robustly converge to a level sufficiently close to, but below, 2 per cent within our projection horizon, and such convergence has been consistently reflected in underlying inflation dynamics”. Please indicate whether you expect any change in the forward guidance on policy rates.¹¹

No	Yes

If you have indicated “yes”, please provide the date when this change would occur.

Month	Year

¹⁰ Please omit the % sign when entering the data.

¹¹ Please indicate your assessment with an "X".

2 Asset Purchases and Reinvestment

2.1 In the Introductory Statement to the April 2021 press conference, the Governing Council stated that it expects net asset purchases under the asset purchase programme (APP) “to run for as long as necessary to reinforce the accommodative impact of our policy rates, and to end shortly before we start raising the key ECB interest rates”. Please provide your expectations of the most likely date (i.e. the mode) of the end of APP net purchases.

Date of the end of net purchases under the APP	
Month	Year

2.2

2.2.1 In the Introductory Statement to the April 2021 press conference, the Governing Council stated that it intends “to continue reinvesting, in full, the principal payments from maturing securities purchased under the APP for an extended period of time past the date when we start raising the key ECB interest rates, and in any case for as long as necessary to maintain favourable liquidity conditions and an ample degree of monetary accommodation.” Please provide your expectations of the most likely length (i.e. the mode) of the “extended period”.

Length of “extended period of time past the date when we start raising the key ECB interest rates” (in quarters)

2.2.2 Please indicate the percentage chance you attach to shorter and longer horizons for the length of the “extended period” you specified in your response to Question 2.2.1.¹²

Numbers of quarters are centred on your answer to Q2.2.1; step size is +/- 1 quarter

If applicable, please state the factors behind any change since the previous survey and explain your answer in more detail.

--

2.4 Please indicate whether you expect any changes to the forward guidance on the APP and reinvestments.¹³

No	Yes

If you have indicated “yes”, please provide details in the table below.

Changes in forward guidance on the APP and reinvestments (please describe below)	Probability you attach to the announcement ¹⁴	Timing of announcement		Timing of implementation	
		Month (Format: MMM)	Year (Format: YYYY)	Month (Format: MMM)	Year (Format: YYYY)

¹³ Please indicate your assessment with an “X”.

¹⁴ Please omit the % sign when entering the data.

2.5

2.5.1 In the Introductory Statement to the April 2021 press conference, the Governing Council stated that “If favourable financing conditions can be maintained with asset purchase flows that do not exhaust the envelope over the net purchase horizon of the PEPP, the envelope need not be used in full. Equally, the envelope can be recalibrated if required to maintain favourable financing conditions to help counter the negative pandemic shock to the path of inflation”.

2.5.1.1 What amount of the PEPP envelope of €1,850bn do you expect to be used by March 2022?

Amount of the PEPP envelope of €1,850bn to be used by March 2022 (EUR billion)

2.5.1.2 If you expect a further recalibration of the PEPP envelope, please provide your expectations of the most likely announcement date and size (i.e. the modes) of the additional envelope. In case you do not expect an increase in the size of the total envelope, please enter “0” for the size of the additional envelope.

Announcement date of PEPP envelope recalibration		Size of additional PEPP envelope
Month	Year	EUR billion

2.5.2 In the Introductory Statement to the April 2021 press conference, the Governing Council stated that it will conduct net asset purchases under the PEPP “until at least the end of March 2022 and, in any case, until the Governing Council judges that the coronavirus crisis phase is over.” Please provide your expectations of the most likely date (i.e. the mode) of the end of PEPP net asset purchases.

Date of the end of net purchases under the PEPP	
Month	Year

Date of the end of net purchases under the PEPP	
Month	Year

- 2.5.3 In the Introductory Statement to the April 2021 press conference, the Governing Council stated that it “will continue to reinvest the principal payments from maturing securities purchased under the PEPP until at least the end of 2023.” Please provide your expectations of the most likely date (i.e. the mode) of the end of PEPP reinvestments of principal payments.

Date of the end of PEPP reinvestments of principal payments	
Month	Year

2.6

- 2.6.1 Please indicate whether you expect any changes to the forward guidance on the PEPP and reinvestments.¹⁵

No	Yes

If you have indicated “yes”, please provide details in the table below.

Changes in forward guidance on the PEPP and reinvestments (please describe below)	Probability you attach to the announcement ¹⁶	Timing of announcement		Timing of implementation	
		Month (Format: MMM)	Year (Format: YYYY)	Month (Format: MMM)	Year (Format: YYYY)

¹⁵ Please indicate your assessment with an “X”.

¹⁶ Please omit the % sign when entering the data.

Please explain your answer in more detail.

3 Refinancing Operations

3.1 What do you expect to be the take-up under TLTRO III of each operation, and in total (in EUR billion)?

	Amount
2019 Q3	3.40
2019 Q4	97.72
2020 Q1	114.98
2020 Q2	1,308.43
2020 Q3	176.46
2020 Q4	50.41
2021 Q1	330.50
2021 Q2	
2021 Q3	
2021 Q4	
Total take-up (including all operations)	

If applicable, please state the factors behind any change since the previous survey and explain your answer in more detail.

3.2 Please provide your estimate of the total repayments (in EUR billion) of the targeted longer-term refinancing operations under TLTRO III for the dates listed below.¹⁷

	Repayment Total amount repaid (per quarter)
2021 Q3	
2021 Q4	
2022 Q1	
2022 Q2	
2022 Q3	
2022 Q4	

¹⁷ For the settlement date of the first voluntary early repayment per operation see the [Indicative calendar for the third series of targeted longer-term refinancing operations \(TLTROs-III\)](#).

	Repayment Total amount repaid (per quarter)
2023 Q1	
2023 Q2	
2023 Q3	
2023 Q4	
2024 Q1	
2024 Q2	
2024 Q3	
2024 Q4	
Total repaid amount (including all operations)	

3.3 What do you expect to be the take-up under PELTRO of each operation, and in total (in EUR billion)?

	Amount
May-20	0.85
Jun-20	15.61
Aug-20	5.68
Sep-20	0.79
Oct-20	1.01
Nov-20	0.75
Dec-20	1.88
2021 Q1	0.42
2021 Q2	
2021 Q3	
2021 Q4	
Total take-up (including all operations)	

If applicable, please state the factors behind any change since the previous survey and explain your answer in more detail.

--

4 Macroeconomic Outlook

4.1 For the euro area, please provide your estimates of the most likely outcome¹⁸ (i.e. the mode) for real GDP growth,¹⁹ the unemployment rate²⁰ and inflation.²¹

Projection				
	Real GDP growth	Unemployment rate	HICP inflation	HICP ex. energy & food
Quarter	(q-o-q) ¹⁷	(qtly avg) ¹⁸	(y-o-y) ¹⁹	(y-o-y) ¹⁹
2021 Q1	-0.62	8.16	1.03	1.13
2021 Q2				
2021 Q3				
2021 Q4				
2022 Q1				
2022 Q2				
2022 Q3				
2022 Q4				
2023 Q1				
2023 Q2				
2023 Q3				
2023 Q4				
2024 Q1				
2024 Q2				
2024 Q3				
2024 Q4				
	(y-o-y)	(rate)	(y-o-y)	(y-o-y)
Long run ²²				

¹⁸ Please omit the % sign when entering the data.

¹⁹ q-o-q calendar and seasonally adjusted but not annualised. Cut-off date for HICP and HICP inflation excluding energy and food: 19 May 2021.

²⁰ Seasonally adjusted.

²¹ If a projection is available for this variable at a monthly frequency, then the quarterly rate may be obtained by calculating the average of the y-o-y change for each of the three months in the quarter.

²² The long run should be interpreted as the horizon over which the effects of all shocks will vanish. For the purposes of this survey this can be interpreted, for the sake of simplicity, as around ten years.

If applicable, please state the factors behind any change since the previous survey and explain your answer in more detail.

--

4.1.1 Please indicate your estimate of the most likely value²³ (i.e. the mode) for the following indicators during the quarter of the next increase in key interest rates.

Real GDP growth (y-o-y) ²⁴	Unemployment rate (qtlly avg) ²⁵	HICP inflation (y-o-y) ²⁶	HICP ex. energy & food (y-o-y) ²⁴

4.1.2 Please indicate the percentage chance that you attach to the following levels of long run HICP inflation.

Long run HICP inflation	Probability
<0%	
0.0 - 0.2%	
0.3 - 0.5%	
0.6 - 0.8%	
0.9 - 1.1%	
1.2 - 1.4%	
1.5 - 1.7%	
1.8 - 2.0%	
2.1 - 2.3%	
2.4 - 2.6%	
2.7 - 2.9%	
3.0 - 3.2%	
3.3 - 3.5%	
3.6 - 3.8%	
≥ 3.9%	

²³ Please omit the % sign when entering the data.

²⁴ Year-on-year growth that you foresee for the quarter of the next increase in key interest rates.

²⁵ Seasonally adjusted quarterly average of the unemployment rate that you foresee for the quarter of the next increase in key interest rates.

²⁶ Quarterly rate of inflation (headline and core, respectively) that you foresee for the quarter of the next increase in key interest rates. If a projection is available for this variable at a monthly frequency, then the quarterly rate may be obtained by calculating the average of the y-o-y change for each of the three months in the quarter.

Long run HICP inflation	Probability
Check sum is 100%	

4.2 How do you assess the balance of risks surrounding your projections for euro area growth and inflation?²⁷ In the second table below, please specify any particular risks that you consider important, even beyond this horizon.

	Risks surrounding the euro area growth outlook			Risks surrounding the euro area inflation outlook		
	downside	balanced	upside	downside	balanced	Upside
2021						
2022						
2023						

Risks surrounding the euro area growth outlook in detail	Risks surrounding the euro area inflation outlook in detail

If applicable, please state the factors behind any change since the previous survey and explain your answer in more detail.

--

²⁷ Please indicate your assessment with an "X".

5 Please provide any additional information or feedback in this Section.

6 Reference Data Annex²⁸

All data in percent, unless otherwise stated.

TLTRO III

All TLTRO III operations have a maturity of three years from their settlement date; counterparties are able to repay the amounts borrowed under TLTRO III at a quarterly frequency starting two years from the settlement of each operation. For further information, see:

<https://www.ecb.europa.eu/mopo/implement/omo/tltro/html/index.en.html>.

TLTRO III outstanding amounts and maturity dates

TLTRO III	Maturity date	Amount (in EUR billion)
1	28/09/2022	3.40
2	21/12/2022	97.72
3	29/03/2023	114.98
4	28/06/2023	1,308.43
5	27/09/2023	174.46
6	20/12/2023	50.41
7	27/03/2024	330.50
TOTAL		2,079.90

³⁰ Actual redemption for April 2021, based on month-end data. Remaining values are ECB estimates. Figures may not add up due to rounding. Figures are preliminary and may be subject to revision. Note: Realised redemptions may differ from estimated redemptions. For more details, see <https://www.ecb.europa.eu/mopo/implement/omt/html/index.en.html>.

PELTRO

All PELTRO operations provide longer-term funding to counterparties with decreasing tenors, starting with a tenor of 16 months in the first operation and ending with a tenor of 8 months in the last operation; for further information, see:

https://www.ecb.europa.eu/press/pr/date/2020/html/ecb.pr200430_1-477f400e39.en.html.

PELTRO outstanding amounts and settlement dates
